

Prospectus Supplement
(To Prospectus dated May 4, 2026)

Up to \$350,000,000

Common Shares

We, Biohaven Ltd., have entered into an amendment, dated May 4, 2026, to the existing equity distribution agreement, dated as of October 2, 2023, as amended by amendment no. 1, dated as of August 16, 2024 (as amended, the “equity distribution agreement”), with J.P. Morgan Securities LLC, as our sales agent, relating to common shares offered by this prospectus supplement. We previously filed a prospectus supplement, dated August 16, 2024 (the “prior prospectus supplement”), for the offer and sale of up to \$300.0 million common shares pursuant to the equity distribution agreement under the shelf registration statement on Form S-3ASR (Registration Statement No. 333-274822). As of the date of this prospectus supplement, we have offered and sold common shares having an aggregate offering price of approximately \$181.3 million pursuant to the equity distribution agreement and the prior prospectus supplement. The common shares having an aggregate offering price of up to approximately \$118.7 million that remain unsold under the prior prospectus supplement as of the date of this prospectus supplement will no longer be offered or sold under the prior prospectus supplement but will instead be offered and sold under this prospectus supplement and the accompanying prospectus. In accordance with the terms of the equity distribution agreement, under this prospectus supplement, we may offer and sell common shares having an aggregate offering price of up to \$350.0 million from time to time through or to the sales agent, acting as our agent or principal.

Our common shares are listed on the New York Stock Exchange under the symbol “BHAVN”. The last reported sale price of our common shares on May 1, 2026 was \$9.63 per common share.

Sales of our common shares, if any, under this prospectus supplement will be made in sales deemed to be “at the market offerings” as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the “Securities Act”), in ordinary brokers’ transactions, to or through a market maker, on or through the New York Stock Exchange or any other market venue where the securities may be traded, in the over-the-counter market, in privately negotiated transactions, or through a combination of any such methods of sale. The sales agent may also sell our common shares by any other method permitted by law. The sales agent is not required to sell any specific amount of securities but will act as our sales agent using commercially reasonable efforts consistent with its normal trading and sales practices, on mutually agreed terms between the sales agent and us. There is no arrangement for funds to be received in any escrow, trust, or similar arrangement.

Under the equity distribution agreement, we may also sell common shares to the sales agent as principal for their own accounts, at a price to be agreed upon at the time of sale. If we sell common shares to the sales agent as principal, we will enter into a separate terms agreement with the sales agent, and we will describe the agreement in a separate prospectus supplement or pricing supplement.

The compensation to the sales agent for sales of common shares sold pursuant to the equity distribution agreement will be up to 3.00% of the gross proceeds of any common shares sold under the equity distribution agreement. In connection with the sale of the common shares on our behalf, the sales agent will be deemed to be an “underwriter” within the meaning of the Securities Act, and the compensation of the sales agent will be deemed to be underwriting commissions or discounts. We have also agreed to provide indemnification and contribution to the sales agent with respect to certain liabilities, including liabilities under the Securities Act or the Securities Exchange Act of 1934, as amended (the “Exchange Act”).

Investing in our common shares involves a high degree of risk. See “[Risk Factors](#)” on page [S-7](#) of this prospectus supplement and in the documents incorporated by reference into this prospectus supplement and the accompanying prospectus before investing in our common shares.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of common shares and adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. The second part, the accompanying prospectus dated May 4, 2026, provides more general information. Generally, when we refer to this prospectus, we are referring to both parts of this document combined. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or in any document incorporated by reference that was filed with the Securities and Exchange Commission (the “SEC”) before the date of this prospectus supplement, on the other hand, you should rely on the information in this prospectus supplement. If any statement in one of these documents is inconsistent with a statement in another document having a later date – for example, a document incorporated by reference in this prospectus supplement – the statement in the document having the later date modifies or supersedes the earlier statement. You should assume that the information contained in this prospectus supplement is accurate as of the date on the cover page of this prospectus supplement only and that any information we have incorporated by reference or included in the accompanying prospectus is accurate only as of the date given in the document incorporated by reference or as of the date of the prospectus, as applicable, regardless of the time of delivery of this prospectus supplement or the accompanying prospectus or any sale of our common shares. Our business, financial condition, results of operations, and prospects may have changed since that date.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus supplement to “Biohaven,” the “Company,” “we,” “us,” “our,” or similar references mean Biohaven Ltd. and our subsidiaries, on a consolidated basis.

This prospectus supplement and the documents incorporated by reference herein contain references to our trademarks and to trademarks belonging to other entities. We do not intend our use or display of other companies’ trade names or trademarks to imply a relationship with, or endorsement or sponsorship of us by, any other companies.

The industry and market data and other statistical information contained in this prospectus supplement, the accompanying prospectus and the documents we incorporate by reference are based on management’s own estimates, independent publications, government publications, reports by market research firms, or other published independent sources, and, in each case, are believed by management to be reasonable estimates. Although we believe these sources are reliable, we have not independently verified the information.

PROSPECTUS SUPPLEMENT SUMMARY

The following summary highlights and, in certain cases, updates some of the information contained elsewhere in or incorporated by reference into this prospectus supplement. Because this is only a summary, however, it does not contain all of the information that may be important to you. You should carefully read this entire prospectus supplement, including the information incorporated by reference herein, especially the matters discussed under “Risk Factors” in this prospectus supplement and the “Risk Factors” section of our Annual Report on Form 10-K for the year ended December 31, 2025, along with our consolidated financial statements and notes thereto, before making an investment decision.

Company Overview

Biohaven is a biopharmaceutical company focused on the discovery, development and commercialization of life-changing treatments in key therapeutic areas, including immunology, obesity, neuroscience and oncology. We are advancing our innovative portfolio of therapeutics, leveraging our proven drug development experience and multiple, proprietary drug development platforms.

Risks Associated with Our Business

Our business is subject to a number of risks, including those highlighted in the section titled “Risk Factors” immediately following this prospectus summary and those described under similar headings in the documents incorporated by reference into this prospectus. These risks include, among others:

Risks Related to Our Financial Position and Need for Additional Capital

- We have a limited operating history, have incurred significant operating losses since inception and anticipate that we will continue to incur substantial operating losses for the foreseeable future.
- Deterioration in general economic conditions in the United States and globally, including the effect of prolonged periods of inflation on our suppliers, third-party service providers and potential partners, may have a negative impact on our business and results of operations.
- An inability to raise capital when needed or on terms favorable to us could force us to curtail our planned operations and growth strategy.
- Credit risk with respect to our investments or the financial institutions at which we deposit funds could adversely affect us.
- The terms of the Note Purchase Agreement, dated April 28, 2025, by and among us and our subsidiaries, the purchasers party thereto and the purchaser agent party thereto (the “Note Purchase Agreement”) and our level of indebtedness could adversely affect our business and financial condition and limit our ability to plan for, or respond to, changes in our business.
- The Note Purchase Agreement contains affirmative and negative covenants and events of default, which may prevent us from capitalizing on business opportunities and taking certain corporate actions, and includes a put option in favor of the purchasers thereto, which could have a material adverse effect on our business, financial condition and results of operations.

Risks Related to the Development of Our Product Candidates

- We depend entirely on the success of a limited number of product candidates.
- Clinical trials are very expensive, time consuming and difficult to design and implement, involve uncertain outcomes and may not be predictive of results of future trials.
- Regulatory approval processes in the U.S. and foreign jurisdictions are lengthy, time consuming and unpredictable.

- Our product candidates may fail to demonstrate safety and efficacy in clinical trials, or may cause serious adverse or unacceptable side effects.
- We may become exposed to costly and damaging liability claims, which may not be covered by insurance.

Risks Related to Commercialization of Our Product Candidates

- We have never commercialized a product candidate and may lack the necessary expertise, personnel and resources to successfully commercialize any product candidate that may receive regulatory approval.
- We operate in a highly competitive and rapidly changing industry.
- Failure to obtain or maintain adequate coverage and reimbursement for our approved product candidates could limit our ability to market those products and decrease our ability to generate revenue.
- Our product candidates, if approved, will be subject to ongoing regulatory oversight.
- Our approved product candidates may fail to achieve the degree of market acceptance by physicians, patients, third-party payors and others in the medical community necessary for commercial success.

Risks Related to Our Dependence on Third Parties

- We rely on third parties to conduct our preclinical studies and clinical trials and to supply, manufacture and distribute clinical drug supplies for our product candidates, which may expose our business to risks.
- We may not establish or maintain collaborations with third parties to develop or commercialize product candidates.

Risks Related to Regulatory Compliance

- Enacted and future legislation may increase the difficulty and cost for us to obtain marketing approval of and commercialize our product candidates and may affect the prices we may set.
- Our business operations and relationships with investigators, health care professionals, consultants, third-party payors and customers are subject to federal and state healthcare and other laws.
- We may not obtain or maintain orphan drug designation or exclusivity for our product candidates.
- Disruptions at the U.S. Food and Drug Administration (“FDA”) and other government agencies could prevent new products from being developed or commercialized in a timely manner, or negatively impact the approval of a New Drug Application (“NDA”), Biologics License Application (“BLA”) or similar application.

Risks Related to Our Intellectual Property

- We could lose market exclusivity earlier than expected.
- If we were unable to obtain licenses from third parties on commercially reasonable terms or lose our rights to licensed intellectual property, we may not be able to continue developing or commercializing our product candidates.
- Patent terms may not provide exclusivity for our product candidates for an adequate amount of time to realize sufficient commercial benefits.
- Third parties may seek to invalidate our patents.
- Third parties may initiate legal proceedings alleging that we are infringing their intellectual property rights, the outcome of which would be uncertain and could have a negative impact on the success of our business.

Risks Related to Our Business Operations, Employee Matters and Managing Growth

- Our future growth and ability to compete depend on, among other things, retaining key personnel and recruiting additional qualified personnel and on our ability to penetrate foreign markets.
- Laws and regulations governing our international operations may preclude us from developing, manufacturing and selling certain product candidates and products outside of the United States and require us to develop and implement costly compliance programs.
- We may encounter difficulties in managing our growth, which could disrupt our operations.
- Our employees, independent contractors, consultants, commercial collaborators, principal investigators, CROs and vendors may engage in improper activities.
- Our business and operations may be materially adversely affected in the event of computer system failures or security breaches.

Risks Related to Ownership of Our Common Shares

- Substantially all of our total outstanding shares may be sold freely into the market. This could cause the market price of our common shares to drop significantly, even if our business is doing well.
- Because we do not expect to pay dividends on our common shares in the foreseeable future, capital appreciation, if any, would be your sole source of gain.
- The trading price of our common shares has been and may continue to be volatile.
- If we are or become a passive foreign investment company, there could be adverse U.S. federal income tax consequences to U.S. holders.
- We are a British Virgin Islands (“BVI”) business company limited by shares, and the rights of shareholders are more limited under BVI law than under U.S. law. It may be difficult to enforce a U.S. or foreign judgment against us, our directors and our officers outside the United States.

Risks Related to This Offering

- If you purchase common shares in this offering, you may incur immediate and substantial dilution in the book value of your shares.
- The actual number of common shares we will issue under the equity distribution agreement, at any one time or in total, is uncertain.
- The common shares offered hereby will be sold in “at-the-market offerings,” and investors who buy common shares at different times will likely pay different prices.
- We will have broad discretion in the use of the net proceeds from this offering and may not use them effectively.
- Changes in tax law, determinations by tax authorities or changes in our effective tax rates may adversely affect our business and financial results.

RISK FACTORS

Investing in our common shares involves a high degree of risk. Before you invest in our common shares, you should carefully consider the risks described below, as well as general economic and business risks and the other information in this prospectus supplement and in the documents incorporated by reference herein, including those set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2025. The occurrence of any of the events or circumstances described below or other adverse events could have a material adverse effect on our business, results of operations and financial condition and could cause the trading price of our common shares to decline. Additional risks or uncertainties not presently known to us or that we currently deem immaterial may also harm our business. Any of the following risks as well as the risks discussed in the documents incorporated by reference herein, could have a material adverse effect on our business, operating results and financial condition and cause the trading price of our common shares to decline, which would cause you to lose all or part of your investment. When determining whether to invest, you should also refer to the other information contained or incorporated by reference in this prospectus supplement, including our financial statements and the related notes thereto. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us may also adversely affect our business.

Risks Related to This Offering

If you purchase common shares in this offering, you may incur immediate and substantial dilution in the book value of your shares.

The offering prices per common share in this offering may exceed the net tangible book value per share of our common shares. Assuming that an aggregate of 36,344,755 common shares are sold at a price of \$9.63 per share pursuant to this prospectus supplement, which was the last reported sale price of our common shares on the NYSE on May 1, 2026, for aggregate gross proceeds of approximately \$350.0 million, then, after deducting estimated commissions and estimated aggregate offering expenses payable by us, you would experience immediate dilution of \$7.20 per share, representing the difference between our as adjusted net tangible book value per common share as of March 31, 2026, after giving effect to this offering and the assumed offering price. See the section titled “Dilution” below for a more detailed illustration of the dilution you would incur if you participate in this offering. Because the sales of the common shares offered hereby will be made directly into the market or in negotiated transactions, the prices at which we sell these shares will vary, and these variations may be significant. Further, we have in the past issued common shares and may in the future issue common shares for general corporate purposes and other purposes, which may include shares issued in connection with strategic transactions or royalty and milestone payment obligations. Purchasers of the common shares we sell, as well as our existing shareholders, will experience significant dilution if we sell common shares at prices significantly below the price at which they invested.

In addition, the exercise of any of our outstanding options or warrants or settlement of our outstanding restricted share units could result in additional dilution. As a result of the dilution to investors purchasing common shares in this offering, investors may receive significantly less than the purchase price paid in this offering, if anything, in the event of our liquidation.

The actual number of common shares we will issue under the equity distribution agreement, at any one time or in total, is uncertain.

Subject to certain limitations in the equity distribution agreement and compliance with applicable law, we have the discretion to request the sales agent to sell on our behalf common shares at any time throughout the term of the equity distribution agreement, and the sales agent will be obligated to use commercially reasonable efforts to sell the common shares. The number of common shares that are sold by the sales agent after we request that sales be made will fluctuate based on the market price of the common shares during the sales period and limits we set with the sales agent. Because the price per share of the common shares sold will fluctuate based on the market price of our common shares during the sales period, it is not possible at this stage to predict the number of common shares that will ultimately be issued by us under the equity distribution agreement.

The common shares offered hereby will be sold in “at-the-market offerings,” and investors who buy common shares at different times will likely pay different prices.

Investors who purchase common shares in this offering at different times will likely pay different prices, and therefore may experience different outcomes in their investment results. We will have discretion, subject to market demand, to vary the timing, prices, and number of common shares sold. Investors may experience a decline in the value of their common shares as a result of sales of common shares made at prices lower than the prices they paid.

Sales of a substantial number of our common shares in the public market could occur at any time. This could cause the market price of our common shares to drop significantly, even if our business is doing well.

Sales of a substantial number of our common shares in the public market could occur at any time, subject to certain restrictions and limitations. If we issue additional common shares, or our shareholders sell, or the market perceives that our shareholders intend to sell, substantial amounts of our common shares in the public market, the market price of our common shares could decline significantly.

In June 2025, we issued 3,588,688 of our common shares (the “Knopp Shares”) to Knopp Biosciences LLC as consideration under the Amendment to Membership Interest Purchase Agreement, dated as of May 1, 2024 by and among the Company, Biohaven Therapeutics Ltd., Biohaven Pharmaceuticals, Inc. and Knopp Biosciences LLC. The Knopp Shares have been registered for resale on a prospectus supplement, and Knopp Biosciences LLC may from time to time offer and sell, pursuant to the prospectus supplement and the accompanying prospectus, any or all of the Knopp Shares.

In addition, we have filed registration statements on Form S-8 registering the issuance of common shares subject to options or other equity awards issued or reserved for future issuance under our equity incentive plans. Shares registered under the registration statements on Form S-8 are available for sale in the public market subject to vesting arrangements and exercise of options, lock-up agreements and, in the case of our affiliates, the restrictions of Rule 144.

We will have broad discretion in the use of the net proceeds from this offering and may not use them effectively.

Our management will have broad discretion in the application of the net proceeds from this offering, including for any of the purposes described in “Use of Proceeds,” and you will not have the opportunity as part of your investment decision to assess whether the net proceeds are being used in any certain manner. Because of the number and variability of factors that will determine our use of the net proceeds from this offering, their ultimate use may vary substantially from their currently intended use. The failure by our management to apply these funds effectively could harm our business. Pending their use, we may invest the net proceeds from this offering in short-term, investment-grade, interest-bearing securities. These investments may not yield a favorable return to our shareholders. Further, our management might not apply the net proceeds or our existing cash in ways that ultimately increase the value of your investment. Accordingly, investors in this offering have only limited information concerning management’s specific intentions and will need to rely upon the judgment of our management with respect to the use of proceeds.

Changes in tax law, determinations by tax authorities or changes in our effective tax rates may adversely affect our business and financial results.

Under current law, we expect to be treated as a non-U.S. corporation for U.S. federal income tax purposes. The tax laws applicable to our business activities, however, are subject to change and uncertain interpretation. Our tax position could be adversely impacted by changes in tax rates, tax laws, tax practice, tax treaties or tax regulations or changes in the interpretation thereof by the tax authorities in jurisdictions in which we do business. Our actual tax rate may vary from our expectation and that variance may be material. A number of factors may increase our future effective tax rates, including: (1) the jurisdictions in which profits are determined to be earned and taxed; (2) the resolution of issues arising from any future tax audits with various tax authorities; (3) changes in the valuation of our deferred tax assets and liabilities; (4) our ability to use net operating loss carryforwards to offset future taxable income and any adjustments to the amount of the net operating loss carryforwards we can utilize; and (5) changes in tax laws or the interpretation of such tax laws, and changes in generally accepted accounting principles. We may

also become subject to income, withholding or other taxes in jurisdictions by reason of our activities and operations, and it is possible that taxing authorities in such jurisdictions could assert that we are subject to greater taxation than we currently anticipate. In particular, the Organization for Economic Co-operation and Development and the G20 Inclusive Framework on Base Erosion and Profit Shifting (the “Inclusive Framework”) has put forth two proposals-Pillar One and Pillar Two-that revise the existing profit allocation and nexus rules and ensure a minimal level of taxation, respectively. On December 12, 2022, the European Union member states agreed to implement the Inclusive Framework’s global corporate minimum tax rate of 15%, and various countries (both within and outside the European Union) have enacted new law implementing Pillar Two or have draft legislation proposed for adoption. The OECD continues to release additional guidance on the two-pillar framework. We are continuing to evaluate the potential impact on future periods of the Inclusive Framework, pending legislative adoption by individual countries, which could have an adverse impact on our effective tax rate, income tax expense and cash flows.

If we are or become a passive foreign investment company, there could be adverse U.S. federal income tax consequences to U.S. holders.

If we are or become a passive foreign investment company (“PFIC”) for any taxable year during which a U.S. holder holds our shares, the U.S. holder would be subject to adverse tax consequences regardless of whether we continue to qualify as a PFIC, including ineligibility for any preferred tax rates on capital gains or on actual or deemed dividends, interest charges on certain taxes treated as deferred, and additional reporting requirements.

Under the Code, we would be a PFIC for any taxable year in which (1) 75% or more of our gross income consisted of passive income or (2) 50% or more of the average quarterly value of our assets consisted of assets that produce, or are held for the production of, passive income. For purposes of these tests, passive income includes, but is not limited to, dividends, interest, gains from the sale or exchange of investment property and certain rents and royalties. In addition, for purposes of the above calculations and subject to certain exceptions, a non-U.S. corporation that directly or indirectly owns at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets and received directly its proportionate share of the income of such other corporation.

Although we believe our common shares should not currently be stock of a PFIC for U.S. federal income tax purposes and do not expect to become a PFIC in the foreseeable future, we cannot provide any assurances regarding our PFIC status for any current or future taxable years. The determination of whether we are a PFIC is a fact-intensive determination made on an annual basis applying principles and methodologies which in some circumstances are unclear and subject to varying interpretation. In particular, the determination of whether we are a PFIC and the characterization of our assets as active or passive may depend in part on (i) our current and intended future business plans which are subject to change and (ii) the application of certain “look-through” rules. For our current and future taxable years, the total value of our assets for PFIC testing purposes may fluctuate considerably from time to time, and is dependent on our application (which inherently involves an element of judgment) of the relevant valuation assumptions and methodologies. Under the income test, our status as a PFIC depends on the composition of our income which, in our current and future taxable years, we may not be able to fully control, for example, with respect to income attributed to us from entities owned 25% or more by us. The composition of our income and assets is also affected by how, and how quickly, we spend the cash we raise in any offering. Therefore, we cannot provide any assurance regarding our PFIC status for any past, current or future taxable years.

In certain circumstances, a U.S. holder of shares in a PFIC may alleviate some of the adverse tax consequences described above by making a “qualified electing fund” (“QEF”) election to include in income its pro rata share of the corporation’s income on a current basis. However, a U.S. holder may make a QEF election with respect to our common shares only if we agree to furnish such U.S. holder annually with a PFIC annual information statement as specified in the applicable U.S. Treasury Regulations. We currently do not intend to prepare or provide the information that would enable U.S. holders to make a QEF election if we are treated as a PFIC for any taxable year, and U.S. holders of our common shares should assume that a QEF election will not be available.

Please see “Material United States Federal Income Tax Considerations” for further information. U.S. holders should consult their own tax advisors with respect to the operation of the PFIC rules and related reporting

requirements in light of their particular circumstances, including the advisability of making any election that may be available.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus, or documents incorporated by reference in this prospectus supplement and the accompanying prospectus, contain “forward-looking statements” that involve risks and uncertainties. We make such forward-looking statements pursuant to the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995 and other federal securities laws. All statements other than statements of historical facts contained or incorporated by reference in this prospectus supplement, including statements regarding our future results of operations and financial position, strategy and plans for our business, and our expectations for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “design,” “intend,” “expect,” “could,” “plan,” “potential,” “predict,” “seek,” “should,” “would” or the negative of these terms or other comparable terminology. Forward-looking statements are not guarantees of future performance and are based on certain assumptions, discuss current expectations and projections about future events, describe plans and strategies or state other forward-looking information. - our plans to pursue research and development of product candidates;
- anticipated future milestones, contingent and royalty payments and lease payments (and, in each case, their expected impact on liquidity);
- our commercialization, marketing and manufacturing capabilities and strategy; and
- our estimates regarding future revenues, expenses and needs for additional financing.

Important factors that could cause actual results of operations, financial condition and liquidity, the development of the industry in which we operate and the timing of certain events, among other things, to differ materially from those discussed, projected, anticipated, indicated or reflected in such forward-looking statements and that should be considered in evaluating our outlook include, but are not limited to, the following:

- future business combinations or disposals;
- our ability to enter into additional collaborations with third parties;
- the timing of and our ability to obtain and maintain regulatory approvals for our product candidates;
- our intellectual property position;
- the rate and degree of market acceptance of our products or product candidates, and our estimates regarding the potential market opportunity for our product candidates;
- our competitive position, including our competitors and competing products (including biosimilars);
- the impact of economic conditions, including volatility in interest rates and inflation, on the costs of raw materials, wages, manufacturing and clinical trials and on borrowing costs;
- the timing and anticipated amounts of future tax payments and benefits (including the potential recognition of unrecognized tax benefits), as well as timing of conclusion of tax audits;
- the impact of disruptions at the FDA and other government agencies that could prevent new products from being developed or commercialized in a timely manner, or negatively impact the approval of an NDA, BLA or similar application; and

USE OF PROCEEDS

We may issue and sell common shares having aggregate sales proceeds of up to \$350.0 million from time to time under this prospectus supplement. Because there is no minimum offering amount required as a condition to close this offering, the actual total public offering amount, commissions, and proceeds to us, if any, are not determinable at this time. There can be no assurance that we will sell any common shares under or fully utilize the equity distribution agreement with the sales agent as a source of financing.

We currently plan to use the net proceeds we receive from this offering for business development opportunities and other corporate purposes.

In the ordinary course of our business, we expect from time to time to evaluate the acquisition of, investment in or in-license of complementary products, technologies or businesses, and we could use a portion of the net proceeds from this offering for such activities.

This expected use of net proceeds from this offering represents our intentions based upon our current plans and business conditions, which could change in the future as our plans and business conditions evolve. Predicting the cost necessary to develop product candidates can be difficult and the amounts and timing of our actual expenditures may vary significantly depending on numerous factors, including the progress of our development, the status of and results from clinical trials, any collaborations that we may enter into with third parties for our product candidates and any unforeseen cash needs.

Our management will have broad discretion in the application of the net proceeds from this offering, and investors will be relying on the judgment of our management regarding the application of the net proceeds from this offering. The timing and amount of our actual expenditures will be based on many factors, including cash flows from operations and the anticipated growth of our business. Pending these uses, we plan to hold these net proceeds in interest bearing accounts, with the goal of capital preservation and liquidity so that such funds are readily available to fund our operations.

DILUTION

If you invest in our common shares in this offering, your ownership interest will be diluted immediately to the extent of the difference between the public offering price per common share and the as adjusted net tangible book value per common share immediately after this offering.

Our historical net tangible book value as of March 31, 2026 was \$109.7 million, or \$0.73 per common share. Our historical net tangible book value is the amount of our total tangible assets less our total liabilities. Historical net tangible book value per share represents historical net tangible book value divided by the 150,506,490 common shares outstanding as of March 31, 2026.

After giving effect to the sale of \$350.0 million of our common shares in this offering assuming for illustrative purposes that an aggregate of 36,344,755 common shares are sold during the term of the equity distribution agreement at a price of \$9.63 per common share, the last reported sale price of our common shares on NYSE on May 1, 2026, and after deducting estimated offering commissions and estimated offering expenses payable by us, our as adjusted net tangible book value as of March 31, 2026, would have been approximately \$454.0 million, or \$2.43 per common share. This represents an immediate increase in net tangible book value of \$2.43 per share to existing shareholders and immediate dilution in net tangible book value of \$7.20 per share to investors purchasing common shares in this offering at the assumed public offering price.

The following table illustrates this per share dilution:

Public offering price per share	\$	9.63
Historical net tangible book value per share as of March 31, 2026		0.73
Increase in as adjusted net tangible book value per share to existing shareholders attributable to this offering		1.70
As adjusted net tangible book value per share after this offering		2.43
Dilution per share to new investors purchasing common shares in this offering	\$	7.20

The number of common shares to be outstanding immediately after this offering is based on 150,506,490 common shares outstanding as of March 31, 2026.

The table and discussion above do not include:

- 20,311,078 common shares issuable upon the exercise of stock options outstanding as of March 31, 2026, at a weighted average exercise price of \$18.84 per share;
- 922,527 common shares issuable upon the vesting of restricted share units as of March 31, 2026;
- 756,230 common shares reserved for future issuance of awards under the 2022 Plan; and
- 3,840,272 common shares reserved for future issuance under the ESPP.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

This section describes the material U.S. federal income tax consequences of the ownership of our common shares. This section applies solely to holders that acquire our common shares pursuant to this offering and that will hold such common shares as capital assets for tax purposes. This section addresses only U.S. federal income taxation and does not discuss all of the tax consequences that may be relevant to a holder in light of such holder's individual circumstances, including non-U.S., state or local tax consequences, estate and gift tax consequences, and tax consequences arising under the Medicare contribution tax on net investment income or the alternative minimum tax. This section does not apply to holders subject to special rules, including:

- a dealer in securities or foreign currencies;
- a regulated investment company;
- a trader in securities that elects to use a mark-to-market method of accounting for securities holdings;
- a tax-exempt organization;
- a bank, financial institution, or insurance company;
- a person that directly, indirectly or constructively owns 5% or more of the combined voting power of our common shares, or of the total value of our common shares;
- a person that holds our common shares as part of a straddle or a hedging, conversion, or other risk reduction transaction for U.S. federal income tax purposes;
- a person that acquires or sells our common shares as part of a wash sale for U.S. federal income tax purposes;
- a person that acquired our common shares pursuant to the exercise of employee share options or otherwise as compensation;
- a U.S. holder (as defined below) whose functional currency is not the U.S. dollar; or
- investors in this offering who are existing shareholders of our company.

For purposes of this discussion, a "U.S. holder" is a beneficial owner of our common shares that is, for U.S. federal income tax purposes:

- an individual that is a citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized under the laws of the United States;
- an estate whose income is subject to U.S. federal income tax regardless of its source; or
- a trust if a U.S. court can exercise primary supervision over the trust's administration and one or more persons are authorized to control all substantial decisions of the trust.

This section is based on the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, existing and proposed regulations, published rulings and court decisions, as well as on applicable tax treaties, all as currently in effect. These authorities are subject to change, possibly on a retroactive basis.

This discussion is intended to provide only a general summary of the material U.S. federal income tax consequences of owning our common shares. We do not intend it to be a complete analysis or description of all potential U.S. federal income tax consequences of owning our common shares. The U.S. federal income tax laws are complex and subject to varying interpretations. Accordingly, the Internal Revenue Service ("IRS") may not agree with the tax consequences described in this Registration Statement.

We have not sought, and do not intend to seek, any ruling from the IRS with respect to the statements made and the conclusions reached in the following summary, and no assurance can be given that the IRS will agree with the views expressed herein, or that a court will not sustain any challenge by the IRS in the event of litigation.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common shares, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in an entity or arrangement treated as a partnership for U.S. federal income tax purposes holding shares should consult its tax advisors with regard to the U.S. federal income tax treatment of our common shares.

U.S. Holders

The tax treatment of our common shares will depend in part on whether or not we are classified as a passive foreign investment company, or PFIC, for U.S. federal income tax purposes. Except as discussed below under “—PFIC Considerations,” this discussion assumes that we are not classified as a PFIC for U.S. federal income tax purposes.

Taxation of Dividends

Under U.S. federal income tax laws, the gross amount of any distribution we pay out of our current or accumulated earnings and profits (as determined for U.S. federal income tax purposes), other than certain pro-rata distributions of our shares, will be treated as a dividend that is subject to U.S. federal income taxation. For a noncorporate U.S. holder, dividends that constitute qualified dividend income will be taxable to the holder at the preferential rates applicable to long-term capital gains, provided that the holder holds the shares for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meets other holding period requirements. For this purpose, our common shares are treated as stock of a “qualified foreign corporation” if our common shares are readily tradable on an established securities market in the United States. Our common shares are listed on the NYSE, which is treated as an established securities market in the United States for these purposes, in which case dividends that we pay with respect to our common shares would generally constitute qualified dividend income, assuming the holding period requirements are met. However, we can give no assurances in this regard.

A U.S. holder must include any foreign tax withheld, if any, from the dividend payment in this gross amount even though the holder does not in fact receive it. The dividend is taxable to a U.S. holder when the holder receives the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from other United States corporations. Distributions in excess of current and accumulated earnings and profits, as determined for U.S. federal income tax purposes, will be treated as a non-taxable return of capital to the extent of the holder’s basis in the shares and thereafter as capital gain. We do not currently expect to calculate earnings and profits in accordance with U.S. federal income tax principles. Accordingly, a U.S. holder should expect to generally treat distributions that we make as dividends.

Subject to certain limitations and the following sentence, the foreign tax withheld, if any, and paid over to foreign countries may be creditable or deductible against a U.S. holder’s U.S. federal income tax liability. Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the preferential tax rates. To the extent a reduction or refund of the tax withheld is available to the holder under foreign law, the amount of tax withheld that could have been reduced or that is refundable will not be eligible for credit against the holder’s U.S. federal income tax liability.

Dividends will generally be income from sources outside the United States and will generally be “passive” income for purposes of computing the foreign tax credit allowable to a U.S. holder. However, if (a) we are 50% or more owned, by vote or value, by United States persons and (b) at least 10% of our earnings and profits are attributable to sources within the United States, then for foreign tax credit purposes, a portion of our dividends would be treated as derived from sources within the United States. With respect to any dividend paid for any taxable year, the United States source ratio of our dividends for foreign tax credit purposes would be equal to the portion of our earnings and profits from sources within the United States for such taxable year, divided by the total amount of

our earnings and profits for such taxable year. There can be no assurance that no portion of our dividends will be treated as derived from sources within the United States pursuant to the rule described in this paragraph.

Taxation of Capital Gains

If a U.S. holder sells or otherwise disposes of our common shares, the holder will recognize capital gain or loss for U.S. federal income tax purposes equal to the difference between the U.S. dollar value of the amount that the holder realizes and the holder's tax basis, determined in U.S. dollars, in the shares. Capital gain of a noncorporate U.S. holder is generally taxed at preferential rates where the property is held for more than one year. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes.

PFIC Considerations

We believe that our common shares should not currently be stock of a PFIC for U.S. federal income tax purposes and do not expect to become a PFIC in the foreseeable future. However, the determination of whether we are a PFIC is a fact-intensive determination made on an annual basis applying principles and methodologies which in some circumstances are unclear and subject to varying interpretation. In particular, the determination of whether we are a PFIC and the characterization of our assets as active or passive may depend in part on (i) our current and intended future business plans which are subject to change and (ii) the application of certain "look-through" rules. For our current and future taxable years, the total value of our assets for PFIC testing purposes may fluctuate considerably from time to time, and is dependent on the application (which inherently involves an element of judgment) of the relevant valuation assumptions and methodologies. Under the income test, our status as a PFIC depends on the composition of our income which, in our current and future taxable years, we may not be able to fully control, for example, with respect to income attributed to us from entities owned 25% or more by us. The composition of our income and assets is also affected by how, and how quickly, we spend the cash raised in this and any other offering. Therefore, we cannot provide any assurance regarding PFIC status for any past, current or future taxable years.

In general, we will be a PFIC with respect to a U.S. holder if for any taxable year in which the holder held our common shares:

- at least 75% of our gross income for the taxable year is passive income; or
- at least 50% of the value, determined on the basis of a quarterly average, of our assets is attributable to assets that produce or are held for the production of passive income.

"Passive income" generally includes dividends, interest, gains from the sale or exchange of investment property rents and royalties (other than certain rents and royalties derived in the active conduct of a trade or business) and certain other specified categories of income. Other than with respect to stock of a domestic corporation that is 25%-owned (by value) by certain foreign corporations, if a foreign corporation owns at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.

If we are or become a PFIC, and a U.S. holder did not make a mark-to-market election, as described below, the holder will generally be subject to special rules with respect to:

- any gain the holder realizes on the sale or other disposition of the shares; and
- any excess distribution that we make to the holder (generally, any distributions to the holder during a single taxable year, other than the taxable year in which the holder's holding period in the shares begins, that are greater than 125% of the average annual distributions received by the holder in respect of the shares during the three preceding taxable years or, if shorter, the holder's holding period for the shares that preceded the taxable year in which the holder receives the distribution).

Under these rules:

- the gain or excess distribution will be allocated ratably over the holder's holding period for the shares;
- the amount allocated to the taxable year in which the holder realized the gain or excess distribution or to prior years before the first year in which we were a PFIC with respect to the holder will be taxed as ordinary income;
- the amount allocated to each other prior year will be taxed at the highest tax rate in effect for that year; and
- the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year.

Special rules apply for calculating the amount of the foreign tax credit with respect to excess distributions by a PFIC.

If we are a PFIC and, at any time, have a non-U.S. subsidiary that is classified as a PFIC, a U.S. holder generally would be deemed to own a portion of the shares of such lower-tier PFIC, and generally could incur liability for the deferred tax and interest charge described above if we (or our subsidiary) receive a distribution from, or dispose of all or part of our interest in, the lower-tier PFIC or if a U.S. holder otherwise was deemed to have disposed of an interest in the lower-tier PFIC.

If we are or become a PFIC in a taxable year and our common shares are treated as "marketable stock" in such year, a U.S. holder may make a mark-to-market election with respect to the shares. If the U.S. holder makes this election, the holder will not be subject to the PFIC rules described above. Instead, in general, the holder will include as ordinary income each year the excess, if any, of the fair market value of the shares at the end of the taxable year over the holder's adjusted basis in the shares. The holder will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of the shares over their fair market value at the end of the taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). The U.S. holder's basis in the shares will be adjusted to reflect any such income or loss amounts. Any gain that the holder recognizes on the sale or other disposition of the shares would be ordinary income and any loss would be an ordinary loss to the extent of the net amount of previously included income as a result of the mark-to-market election and, thereafter, a capital loss.

The mark-to-market election is available only for "marketable stock," generally, stock that is regularly traded on a national securities exchange that is registered with the SEC, including NYSE (on which the shares are listed), or on a foreign exchange or market that the IRS determines has rules sufficient to ensure that the market price represents a legitimate and sound fair market value. Moreover, a mark-to-market election made with respect to shares of a U.S. holder would not apply to the holder's indirect interest in any lower tier PFICs in which we own shares. U.S. holders should consult their tax advisors regarding the availability and tax consequences of a mark-to-market election with respect to their shares under their particular circumstances.

A U.S. holder's shares will generally be treated as stock in a PFIC if we are or become a PFIC at any time during the holder's holding period in the shares, even if we are not currently a PFIC.

In addition, notwithstanding any election a U.S. holder makes with regard to the shares, dividends that the holder receives from us will not constitute qualified dividend income to the holder if we are a PFIC (or are treated as a PFIC with respect to the holder) either in the taxable year of the distribution or the preceding taxable year. Dividends that the holder receives that do not constitute qualified dividend income are not eligible for taxation at the preferential rates applicable to qualified dividend income. Instead, the holder must include the gross amount of any such dividend paid by us out of our accumulated earnings and profits (as determined for U.S. federal income tax purposes) in the holder's gross income, and it will be subject to tax at rates applicable to ordinary income.

In certain circumstances, a U.S. holder of shares in a PFIC may alleviate some of the adverse tax consequences described above by making a QEF election to include in income its pro rata share of the corporation's income on a current basis. However, a U.S. holder may make a QEF election with respect to our common shares only if we agree

to furnish such U.S. holder annually with a PFIC annual information statement as specified in the applicable U.S. Treasury Regulations. We currently do not intend to prepare or provide the information that would enable U.S. holders to make a QEF election if we are treated as a PFIC for any taxable year, and U.S. holders of our common shares should assume that a QEF election will not be available.

If a U.S. holder owns shares during any year that we are a PFIC with respect to the holder, the holder may be required to file IRS Form 8621.

U.S. holders should consult their tax advisors as to the application of the PFIC rules in the event that our common shares were treated as stock of a PFIC.

NO ASSURANCE CAN BE GIVEN REGARDING OUR PFIC STATUS FOR ANY CURRENT OR FUTURE TAXABLE YEARS. U.S. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE OPERATION OF THE PFIC RULES AND RELATED REPORTING REQUIREMENTS IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES, INCLUDING THE ADVISABILITY OF MAKING ANY ELECTION THAT MAY BE AVAILABLE.

Shareholder Reporting

A U.S. holder that owns “specified foreign financial assets” with an aggregate value in excess of \$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with its tax return. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions, as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Significant penalties may apply for failing to satisfy this filing requirement. U.S. holders are urged to contact their tax advisors regarding this filing requirement.

Non-U.S. Holders

Taxation of Dividends

Dividends paid to a non-U.S. holder in respect of our common shares will not be subject to U.S. federal income tax unless the dividends are “effectively connected” with the holder’s conduct of a trade or business within the United States, and the dividends are attributable to a permanent establishment that the holder maintains in the United States if that is required by an applicable income tax treaty as a condition for subjecting the holder to United States taxation on a net income basis. In such cases, the holder generally will be taxed in the same manner as a U.S. holder. For a corporate non-U.S. holder, “effectively connected” dividends may, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or at a lower rate if the holder is eligible for the benefits of an income tax treaty that provides for a lower rate.

Taxation of Capital Gains

A non-U.S. holder will not be subject to U.S. federal income tax on gain recognized on the sale or other disposition of our common shares unless:

- the gain is “effectively connected” with the holder’s conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that the holder maintains in the United States if that is required by an applicable income tax treaty as a condition for subjecting the holder to United States taxation on a net income basis; or
- the holder is an individual, is present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist.

For a corporate non-U.S. holder, “effectively connected” gains that the holder recognizes may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or at a lower rate if the holder is eligible for the benefits of an income tax treaty that provides for a lower rate.

Backup Withholding and Information Reporting

For a noncorporate U.S. holder, information reporting requirements, on IRS Form 1099, generally will apply to dividend payments or other taxable distributions made to the holder within the United States, and the payment of proceeds to the holder from the sale of our common shares effected at a United States office of a broker. Additionally, backup withholding may apply to such payments if the holder fails to comply with applicable certification requirements or (in the case of dividend payments) is notified by the IRS that the holder has failed to report all interest and dividends required to be shown on the holder's federal income tax returns.

A non-U.S. holder is generally exempt from backup withholding and information reporting requirements with respect to dividend payments made to the holder outside the United States by us or another non-United States payor. The non-U.S. holder is also generally exempt from backup withholding and information reporting requirements in respect of dividend payments made within the United States and the payment of the proceeds from the sale of shares effected at a United States office of a broker, as long as either (i) the non-U.S. holder has furnished a valid IRS Form W-8 or other documentation upon which the payor or broker may rely to treat the payments as made to a non-United States person, or (ii) the non-U.S. holder otherwise establishes an exemption.

Payment of the proceeds from the sale of shares effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker could be subject to information reporting in the same manner as a sale within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States or (iii) the sale has certain other specified connections with the United States.

A person generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed the person's income tax liability by filing a refund claim with the IRS.

EACH HOLDER SHOULD CONSULT ITS TAX ADVISOR ABOUT THE PARTICULAR CONSEQUENCES OF OWNING OUR COMMON SHARES, INCLUDING THE APPLICATION OF STATE, LOCAL AND FOREIGN TAX LAWS, AND POSSIBLE CHANGES IN TAX LAW THAT MAY AFFECT THE TAX CONSEQUENCES DESCRIBED ABOVE.

PLAN OF DISTRIBUTION

We have entered into an amendment, dated as of May 4, 2026, to the existing equity distribution agreement, dated as of October 2, 2023, as amended by amendment no. 1, dated as of August 16, 2024, with J.P. Morgan Securities LLC, as our sales agent, under which we may offer and sell from time to time our common shares having an aggregate offering price of up to \$350.0 million under this prospectus supplement. The sales agent may act as agent on our behalf or purchase common shares as principal.

Sales, if any, of common shares under the equity distribution agreement may be made in ordinary brokers' transactions, to or through a market maker, on or through the NYSE or any other market venue where the securities may be traded, in the over-the-counter market, in privately negotiated transactions, or through a combination of any such methods of sale. The sales agent may also sell our common shares by any other method permitted by law.

The securities may be sold at market prices prevailing at the time of sale, at prices related to such prevailing market prices, or at negotiated prices.

We will designate the maximum amount of common shares to be sold through the sales agent on a daily basis or otherwise as we and the sales agent agree and the minimum price per common share at which such common shares may be sold. Subject to the terms and conditions of the equity distribution agreement, the sales agent will use its commercially reasonable efforts consistent with its normal sales and trading practices to sell on our behalf all of the designated common shares. We may instruct the sales agent not to sell any common shares if the sales cannot be effected at or above the price designated by us in any such instruction. We or the sales agent may suspend the offering of our common shares by notifying the other party. The offering of the shares by the sales agent is subject to receipt and acceptance and subject to the sales agent's right to reject any order in whole or in part.

The sales agent will provide to us written confirmation following the close of trading on the NYSE each day on which common shares are sold under the equity distribution agreement. Each confirmation will include the number of common shares sold on such day, the gross sales proceeds, and the compensation payable by us to the sales agent. We will report at least quarterly the number of common shares sold through the sales agent under the equity distribution agreement, the net proceeds to us (before expenses), and the compensation paid by us to the sales agent in connection with the sales of the common shares.

We will pay the sales agent a commission of up to 3.00% of the gross sales price per common share sold through such agent under the equity distribution agreement. We have also agreed to reimburse the sales agent for certain of their expenses in an amount of up to \$75,000, in addition to an amount not to exceed \$12,500 per each quarter thereafter.

Settlement of any sales of common shares will occur on the first business day following the date on which such sales were made (or such earlier day as is industry practice for regular-way trading). There is no arrangement for funds to be received in an escrow, trust, or similar arrangement. Sales of our common shares as contemplated in this prospectus supplement will be settled through the facilities of The Depository Trust Company or by such other means as we and the sales agent may agree.

The offering of our common shares pursuant to the equity distribution agreement will terminate upon the earlier of (i) the sale of all of our common shares subject to the equity distribution agreement or (ii) termination of the equity distribution agreement by us or by the sales agent as provided therein.

In connection with the sale of common shares on our behalf, the sales agent may be deemed to be an "underwriter" within the meaning of the Securities Act, and the compensation paid to the sales agent may be deemed to be underwriting commissions or discounts.

We have agreed to provide indemnification and contribution to the sales agent against certain liabilities, including civil liabilities under the Securities Act.

Selling Restrictions

Other than in the United States, no action has been taken by us or the sales agents that would permit a public offering of the securities offered by this prospectus supplement and the accompanying prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus supplement may not be offered or sold, directly or indirectly, nor may this prospectus supplement, the accompanying prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus supplement and the accompanying prospectus come are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus supplement and the accompanying prospectus. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or a solicitation of an offer to buy any securities offered by this prospectus supplement and the accompanying prospectus in any jurisdiction in which such an offer or a solicitation is unlawful.

- (a) to any legal entity which is a qualified investor as defined under Article 2 of the Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the Prospectus Regulation), subject to obtaining the prior consent of the representatives for any such offer; or

- the impact of disruptions at the U.S. Food and Drug Administration (FDA) and other government agencies that could prevent new products from being developed or commercialized in a timely manner, or negatively impact the approval of a New Drug Application (NDA), Biologics License Application (BLA) or similar application; and

- other factors identified elsewhere in this prospectus or in our filings with the SEC that are incorporated by reference herein, including those factors described in our Annual Report on Form 10-K for the year ended December 31, 2025.

Any forward-looking statements in this prospectus or the documents incorporated by reference herein reflect our current views as of the date of this prospectus or the incorporated document with respect to future events and with respect to our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results of operations, financial condition and liquidity, performance or achievements, the development of the industry in which we operate and the timing of certain events, among other things, to be materially different from any future results of operations, financial condition and liquidity, performance or achievements discussed, projected, anticipated, indicated, expressed or implied by these forward-looking statements. Factors that may cause actual results to differ materially from current expectations include, among other things, those described under “Risk Factors” and elsewhere in this prospectus. Given these uncertainties, you should not place undue reliance on any forward-looking statements. Except as required by law, we assume no obligation to update or revise any forward-looking statements for any reason, even if new information becomes available in the future.

This prospectus and the documents incorporated by reference herein contain estimates, projections and other information concerning our industry, the general business environment, and the markets for certain diseases, including estimates regarding the potential size of those markets and the estimated incidence and prevalence of certain medical conditions. Information that is based on estimates, forecasts, projections, market research or similar methodologies is inherently subject to uncertainties and actual events, circumstances or numbers, including actual disease prevalence rates and market size, may differ materially from the information reflected in this prospectus. Unless otherwise expressly stated, we obtained this industry, business information, market data, prevalence information and other data from reports, research surveys, studies and similar data prepared by market research firms and other third parties, industry, medical and general publications, government data, and similar sources, in some cases applying our own assumptions and analyses that may, in the future, not prove to have been accurate.

You should read this prospectus and the documents that we incorporate by reference in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect. We qualify all of the forward-looking statements in this prospectus and the documents incorporated by reference herein by these cautionary statements.

DESCRIPTION OF SHARE CAPITAL

The following descriptions are summaries of the material terms of our Amended Memorandum and Articles of Association. Reference is made to the more detailed provisions of, and the descriptions are qualified in their entirety by reference to, the Amended Memorandum and Articles of Association. Please note that this summary is not intended to be exhaustive. For further information, please refer to the full version of our Amended Memorandum and Articles of Association, which is included as an exhibit to the registration statement of which this prospectus is part.

General

We are a British Virgin Islands (“BVI”) business company limited by shares incorporated in the BVI on May 2, 2022, and our affairs are governed by the provisions of our Amended Memorandum and Articles of Association and by the BVI Business Companies Act (As Revised) (the “BVI Act”).

As provided in our Amended Memorandum and Articles of Association, subject to the BVI Act, we have full capacity to carry on or undertake any business or activity, do any act or enter into any transaction, and, for such purposes, full rights, powers and privileges. Our registered office is c/o Maples Corporate Services (BVI) Limited, Kingston Chambers, P.O. Box 173, Road Town, Tortola, British Virgin Islands.

Authorized Shares

Our Amended Memorandum and Articles of Association authorize us to issue up to 200,000,000 common shares, no par value, and up to 10,000,000 preferred shares, no par value (the “Preferred Shares”). Our board of directors (the “Board”) may establish the rights and preferences of the Preferred Shares from time to time. As of April 30, 2026, we had 150,560,990 common shares issued and outstanding, held of record by 49 shareholders, and no Preferred Shares issued.

The following are summaries of material provisions of our Amended Memorandum and Articles of Association and the BVI Act insofar as they relate to the material terms of our common shares.

Common Shares

General. The maximum number of shares we are authorized to issue is 210,000,000 divided into 200,000,000 common shares, with no par value, and 10,000,000 Preferred Shares, with no par value. Holders of common shares have the same rights. All of our outstanding common shares are fully paid and non-assessable.

Our Amended Memorandum and Articles of Association do not provide for pre-emptive rights.

Dividends. The holders of our common shares are entitled to an equal share of such dividends, as may be declared by our Board subject to the BVI Act. Our Amended Memorandum and Articles of Association provide that dividends may be declared and paid at such time, and in such an amount, as the directors determine. Under the BVI Act, the directors must be satisfied that the Company will meet the statutory solvency test immediately after the dividend.

Voting Rights. In respect of all matters subject to a shareholders’ vote, each common share is entitled to one vote for each common share registered in his or her name on our register of shareholders. Holders of common shares shall at all times vote together on all resolutions submitted to a vote of the shareholders. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by the chairperson of such meeting or any one shareholder.

A quorum required for a meeting of shareholders consists of at least 50% of the votes of the shares or class or series of shares entitled to vote present in person or by proxy at the meeting or, if a corporation or other non-natural person, by its duly authorized representative. Shareholders’ meetings for, amongst other things, the election of directors must be held annually. Each general meeting, other than an annual general meeting, shall be an extraordinary general meeting. Directors may call general meetings, and they shall on a shareholders’ requisition forthwith proceed to convene an extraordinary general meeting of the Company. Extraordinary general meetings of

the shareholders of the Company may be called, for any purpose as is a proper matter for shareholder action under applicable BVI law, by (i) the Chairperson of the Board, (ii) the Chief Executive Officer, (iii) the directors pursuant to a resolution of directors or (iv) by shareholders holding not less than 10% of the votes of the outstanding voting shares entitled to vote at the meeting. The directors shall determine the time and place, if any, of such general meeting. Advance notice of not less than 10 and not more than 60 days is required for the convening of our annual general meeting and other general meetings unless such notice is waived in accordance with our Amended Memorandum and Articles of Association.

Appointment and Removal of Directors. In accordance with our Amended Memorandum and Articles of Association, any director may be appointed by resolution of shareholders and may be removed, with cause, by the affirmative vote of at least sixty-six and two-thirds percent (66 2/3%) of the votes of the common shares entitled to vote.

Transfer of Common Shares. Under the BVI Act shares that are listed on a recognized exchange may be transferred without the need for a written instrument of transfer if the transfer is carried out in accordance with the laws, rules, procedures and other requirements applicable to shares listed on the recognized exchange and subject to the Company's Amended Memorandum and Articles of Association.

Under our Amended Memorandum and Articles of Association, our Board may refuse or delay the registration of a transfer of shares where it reasonably determines that it is in the best interest of the Company to do so. Without limiting the generality of the foregoing, our Board may refuse or delay the registration of a transfer of shares if the transferor has failed to pay an amount due in respect of those shares. Where our Board passes a resolution to refuse or delay the registration of a transfer, the Company shall, as soon as practicable, send the transferor and the transferee a notice of the refusal or delay.

Liquidation. On a liquidation or winding up of the Company, assets available for distribution among the holders of common shares shall be distributed among the holders of the common shares on a pro rata basis.

Calls on Common Shares and Forfeiture of Common Shares. Our Board may from time to time make calls upon shareholders for any amounts unpaid on their common shares in a notice served to such shareholders at least 14 clear days prior to the specified time of payment. The common shares that have been called upon and remain unpaid are subject to forfeiture.

Redemption of Common Shares. The BVI Act and our Amended Memorandum and Articles of Association permit us to purchase our own shares with the prior written consent of the relevant shareholders, on such terms and in such manner as may be determined by our Board and by a resolution of directors and in accordance with the BVI Act.

Variation of Rights of Shares. Other than with respect to the issuance of the Preferred Shares in accordance with our Amended Memorandum and Articles of Association, all or any of the rights attached to any class or series of shares may, subject to the provisions of the BVI Act, be varied with the consent in writing of all the holders of the issued shares of that class or series or with the sanction of a resolution passed by a majority of the votes cast at a separate meeting of the holders of the shares of the class or series. The rights conferred upon the holders of the shares of any class issued shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issuance of further shares ranking *pari passu* with or superior to such existing class of shares.

Issuance of Additional Shares. Our Amended Memorandum of Association authorizes our Board to issue additional common shares from time to time as our Board shall determine. However, under BVI law, our directors may only exercise the rights and powers granted to them under our Amended Memorandum and Articles of Association for a proper purpose and for what they believe in good faith to be in the best interests of our Company.

Inspection of Books and Records. A shareholder of the Company is entitled, on giving written notice to the Company, to inspect (a) the memorandum and articles of association of the Company; (b) the register of shareholders; (c) the register of directors; and (d) the minutes of meetings and resolutions of shareholders and of those classes of shareholders of which the holder is a shareholder; and to make copies of or take extracts from the

documents and records. Subject to the Amended Memorandum and Articles of Association, the directors may, if they are satisfied that it would be contrary to the Company's interests to allow a shareholder to inspect any document, or part of a document, specified in (b), (c) and (d) above, refuse to permit the shareholder to inspect the document or limit the inspection of the document, including limiting the making of copies or the taking of extracts from the records.

Where a company fails or refuses to permit a shareholder to inspect a document or permits a shareholder to inspect a document subject to limitations, that shareholder may apply to the BVI High Court for an order that he or she should be permitted to inspect the document or to inspect the document without limitation.

A company is required to keep at the office of its registered agent: its memorandum and articles of association of the company; the register of shareholders or a copy of the register of shareholders; the register of directors or a copy of the register of directors; and copies of all notices and other documents filed by the company in the previous ten years.

Preferred Shares

Our Amended Memorandum and Articles of Association provide that preferred shares may be issued from time to time in one or more series. Our Board is authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our Board is able to, without shareholder approval, issue preferred shares with voting and other rights that could adversely affect the voting power and other rights of the holders of the common shares and could have anti-takeover effects. The ability of our Board to issue preferred shares without shareholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred shares issued and outstanding at the date hereof. Although we do not currently intend to issue any preferred shares, we cannot assure you that we will not do so in the future.

Limitations on the Right to Own Shares

There are no limitations on the right to own our common shares.

Disclosure of Shareholder Ownership

There are no provisions in the Amended Memorandum and Articles of Association governing the ownership threshold above which shareholder ownership must be disclosed.

Anti-Takeover Provisions

Some provisions of our Amended Memorandum and Articles of Association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that:

- establish a classified Board such that not all members of the Board are elected at one time;
- allow the authorized number of our directors to be changed only by resolution of our Board;
- limit the manner in which shareholders can remove directors from the Board;
- establish advance notice requirements for shareholder proposals that can be acted on at shareholder meetings and nominations to our Board;
- require that shareholder actions must be effected at a duly called shareholder meeting and prohibit actions by our shareholders by written consent;
- limit the ability of shareholders to requisition and convene general meetings of shareholders; and

- authorize our Board to issue preferred shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preferred shares without any further vote or action by our shareholders, which could be used to institute a shareholder rights plan, or so-called “poison pill,” that would work to dilute the stock ownership of a potential hostile acquirer, effectively preventing acquisitions that have not been approved by our Board.

However, under BVI law, our directors may only exercise the rights and powers granted to them under our Amended Memorandum and Articles of Association for a proper purpose and for what they believe in good faith to be in the best interests of our Company.

Costs of Claim

Under our Amended Memorandum and Articles of Association, in the event that (i) any shareholder or prior shareholder (“Claiming Party”) initiates or asserts any claim or counterclaim (“Claim”) or joins, offers substantial assistance to or has a direct financial interest in any Claim against the Company or its subsidiaries, directors or shareholder (including any Claim purportedly filed on behalf of the Company or any shareholder), and (ii) the Claiming Party (or the third party that received substantial assistance from the Claiming Party or in whose Claim the Claiming Party had a direct financial interest) does not obtain a judgment on the merits that substantially achieves, in substance and amount, the full remedy sought, then each Claiming Party shall be obligated, jointly and severally, to reimburse the Company and any such shareholder or shareholders for all fees, costs and expenses of every kind and description (including, but not limited to, all reasonable attorneys’ fees and other litigation expenses) that the parties may incur in connection with such Claim.

Differences in Corporate Law

The BVI Act, and the other laws of the BVI, affecting BVI business companies like us and our shareholders differ from laws applicable to U.S. Delaware corporations and their stockholders.

BVI Corporate Law

Mergers and Similar Arrangements

Under the BVI Act, two or more BVI companies or a BVI company and non-BVI company, each a “constituent company”, may merge or consolidate. The BVI Act provides for slightly different procedures depending on the nature of the parties to the merger.

A merger involves the merging of two or more companies into one of the constituent companies (to the merger) with one constituent company continuing in existence to become the surviving company post-merger. A consolidation involves two or more companies consolidating into a new company.

A merger is effective on the date that the articles of merger (as described below) are registered by the Registrar of Corporate Affairs in the BVI, or on such later date, not exceeding 30 days from the date of registration as is stated in the articles of merger.

As soon as a merger becomes effective:

- a. the surviving company (so far as is consistent with its memorandum and articles, as amended by the articles of merger) has all rights, privileges, immunities, powers, objects and purposes of each of the constituent companies;
- b. the memorandum and articles of the surviving company are automatically amended to the extent, if any, that changes to its memorandum and articles are contained in the articles of merger;
- c. assets of every description, including choses in action and the business of each of the constituent companies, immediately vest in the surviving company;

- d. the surviving company is liable for all claims, debts, liabilities and obligations of each of the constituent companies;
- e. no conviction, judgment, ruling, order, claim, debt, liability or obligation due or to become due, and no cause existing, against a constituent company or against any shareholder, director, officer or agent thereof, is released or impaired by the merger; and
- f. no proceedings, whether civil or criminal, pending at the time of a merger by or against a constituent company, or against any shareholder, director or officer, or agent thereof, are abated or discontinued by the merger; but
 - i. the proceedings may be enforced, prosecuted, settled or compromised by or against the surviving company or against the shareholder, director, officer or agent thereof, as the case may be; or
 - ii. the surviving company may be substituted in the proceedings for a constituent company.

The registrar shall strike off the Register of Companies a constituent company that is not the surviving company in the merger.

The BVI Act provides that any shareholder of the Company is entitled to payment of the fair value of his or her shares upon dissenting from a merger, unless the Company is the surviving company of the merger and the shareholder continues to hold the same or similar shares. The following is a summary of the position in respect of dissenters' rights in the event of a merger under the BVI Act.

A dissenter is in most circumstances required to give to the Company written objection to the merger, which must include a statement that the dissenter proposes to demand payment for his or her shares if the merger takes place. This written objection must be given before the meeting of shareholders at which the merger is submitted to a vote, or at the meeting but before the vote. However, no objection is required from a shareholder to whom the Company did not give notice of the meeting of shareholders or where the proposed merger is authorized by written consent of the shareholders without a meeting.

Within 20 days immediately following the written consent, or the meeting at which the merger was approved, the Company shall give written notice of the consent or resolution to each shareholder who gave written objection or from whom written objection was not required, except those shareholders who voted for, or consented in writing to, the proposed merger.

A shareholder to whom the Company was required to give notice who elects to dissent shall, within 20 days immediately following the date on which the copy of the plan of merger or an outline of the merger is given to him, give to the Company a written notice of his or her decision to elect to dissent, stating:

- a. his or her name and address;
- b. the number and classes of shares in respect of which he or she dissents (which must be all shares that he or she holds in the Company); and
- c. a demand for payment of the fair value of his or her shares.

Upon the giving of a notice of election to dissent, the dissenter ceases to have any of the rights of a shareholder except the right to be paid the fair value of his or her shares, and the right to institute proceedings to obtain relief on the ground that the action is illegal.

The Company shall make a written offer to each dissenter to purchase his or her shares at a specified price that the Company determines to be their fair value. Such offer must be given within 7 days immediately following the date of the expiration of the period within which shareholders may give their notices of election to dissent, or within 7 days immediately following the date on which the merger is put into effect, whichever is later.

If the Company and the dissenter fail, within 30 days immediately following the date on which the offer is made, to agree on the price to be paid for the shares owned by the dissenter, then within 20 days:

- a. the Company and the dissenter shall each designate an appraiser;
- b. the two designated appraisers together shall designate an appraiser;
- c. the three appraisers shall fix the fair value of the shares owned by the dissenter as of the close of business on the day prior to the date of the meeting or the date on which the resolution was passed, excluding any appreciation or depreciation directly or indirectly induced by the action or its proposal, and that value is binding on the Company and the dissenter for all purposes; and
- d. the Company shall pay to the dissenter the amount in money upon the surrender by him of the certificates representing his or her shares, and such shares shall be cancelled.

Shareholders' Suits

Under the provisions of the BVI Act, the memorandum and articles of association of a company are binding as between the company and its shareholders and between the shareholders.

If the majority shareholders have infringed a minority shareholder's rights, the minority may seek to enforce its rights either by derivative action or by personal action. A derivative action concerns the infringement of the company's rights where the wrongdoers are in control of the company and are preventing it from taking action, whereas a personal action concerns the infringement of a right that is personal to the particular shareholder concerned.

The BVI Act provides for a series of remedies available to shareholders. Where a company incorporated under the BVI Act conducts some activity which breaches the BVI Act or the company's memorandum and articles of association, the BVI High Court can issue a restraining or compliance order. Shareholders can now also bring derivative, personal and representative actions under certain circumstances.

Generally any other claims against a company by its shareholders must be based on the general laws of contract or tort applicable in the BVI or their individual rights as shareholders as established by the company's memorandum and articles of association.

In certain circumstances, a shareholder has the right to seek various remedies against the company in the event the directors are in breach of their duties under the BVI Act. Pursuant to Section 184B of the BVI Act, if a company or director of a company engages in, proposes to engage in or has engaged in, conduct that contravenes the provisions of the BVI Act or the memorandum or articles of association of the company, the courts of the BVI may, on application of a shareholder or director of the company, make an order directing the company or director to comply with, or restraining the company or director from engaging in conduct that contravenes the BVI Act or the memorandum or articles. Furthermore, pursuant to Section 184I(1) of the BVI Act, a shareholder of a company who considers that the affairs of the company have been, are being or likely to be, conducted in a manner that is, or any acts of the company have been, or are likely to be oppressive, unfairly discriminatory, or unfairly prejudicial to him in that capacity, may apply to the courts of the BVI for an order which, inter alia, can require the company or any other person to pay compensation to the shareholders.

Comparison of BVI Corporate Law and Delaware U.S. Corporate Law

Set forth below is a summary of the significant differences between the provisions of the laws of the BVI applicable to us and the laws applicable to companies incorporated in Delaware in the United States and their stockholders.

Shareholder Proposals

Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special

meeting may be called by the Board or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings. Our Amended Memorandum and Articles of Association allow our shareholders holding not less than 10% of the votes of the outstanding voting shares to requisition a shareholders' meeting. We are not obliged by law to call shareholders' annual general meetings but our Amended Memorandum and Articles of Association require shareholders' meetings for, amongst other things, the election of directors, to be held annually. The location of any shareholders' meeting can be determined by the Board and can be held anywhere in the world.

Cumulative Voting

There are no prohibitions in relation to cumulative voting under the laws of the BVI, but our Amended Memorandum and Articles of Association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Shareholder Action by Written Consent

Although BVI law provides that companies may permit shareholder actions by written consent, our Amended Memorandum and Articles of Association provide that shareholders may not approve corporate matters by way of a written resolution.

Amendment of Memorandum and Articles of Association

Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. As permitted by BVI law, our Amended Memorandum and Articles of Association may be amended with a resolution of our shareholders or, with certain exceptions, by resolutions of directors.

Removal of Directors

Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our Amended Memorandum and Articles of Association, directors can be removed from office, with cause, by a resolution of shareholders passed at a meeting called for the purpose of removing the director or for purposes including the removal of the director by the affirmative vote of at least sixty-six and two-thirds percent (66 2/3%) of the votes of the common shares entitled to vote.

Transactions with Interested Shareholders

The Delaware General Corporation Law contains a business combination statute applicable to Delaware public corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an "interested shareholder" for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or group who or which owns or owned 15% or more of the target's outstanding voting shares within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware public corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

BVI law has no comparable statute. As a result, we are not afforded the same statutory protections in the BVI as we would be offered by the Delaware business combination statute. However, although BVI law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and not with the effect of constituting a fraud on the minority shareholders. See also "—BVI Corporate Law—Shareholders' Suits" above. We have adopted a code of business conduct and ethics which requires employees to fully disclose any situations that could reasonably be

expected to give rise to a conflict of interest, and sets forth relevant restrictions and procedures when a conflict of interest arises to ensure the best interest of the Company. Our Amended Memorandum and Articles of Association also import the provisions of the Delaware General Corporation Law which prohibits the Company from engaging in certain business combinations with an “interested shareholder” for three years following the date that such person becomes an interested shareholder unless (i) prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder, (ii) upon consummation of the transaction which resulted in the shareholder becoming an interested shareholder, the interested shareholder owned at least 85% of the votes of shares in the Company outstanding at the time the transaction commenced or (iii) at or subsequent to such time the business combination is approved by the Board and authorized at an annual or extraordinary general meeting of shareholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the votes of shares not owned by the interested shareholder.

Directors’ Fiduciary Duties

Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director act in a manner he or she reasonably believes to be in the best interests of the corporation. He or she must not use his or her corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, a director must prove the procedural fairness of the transaction and that the transaction was of fair value to the corporation.

Under BVI law, the directors owe fiduciary duties at both common law and under statute, including a statutory duty to act honestly, in good faith and with a view to our best interests. When exercising powers or performing duties as a director, the director is required to exercise the care, diligence and skill that a reasonable director would exercise in the circumstances taking into account, without limitation, the nature of the company, the nature of the decision and the position of the director and the nature of the responsibilities undertaken by him. In exercising the powers of a director, the directors must exercise their powers for a proper purpose and shall not act or agree to the company acting in a manner that contravenes our memorandum and articles of association or the BVI Act.

Indemnification of Directors and Executive Officers and Limitation of Liability

BVI law does not limit the extent to which a company’s memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the BVI High Court to be contrary to public policy (e.g., for purporting to provide indemnification against the consequences of committing a crime). An indemnity will be void and of no effect and will not apply to a person unless the person acted honestly and in good faith and in what he or she believed to be in the best interests of the company and, in the case of criminal proceedings, the person had no reasonable cause to believe that his or her conduct was unlawful. Our Amended Memorandum and Articles of Association permit indemnification of officers and directors for losses, damages, costs and expenses incurred in their capacities as such unless such losses or damages arise from dishonesty or fraud of such directors or officers. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation. In addition, we have entered into indemnification agreements with our directors and executive officers that provide such persons with additional indemnification beyond that provided in our Amended Memorandum and Articles of Association.

Variation of Rights of Shares

Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise.

Other than with respect to the issuance of the Preferred Shares in accordance with our Amended Memorandum and Articles of Association, all or any of the rights attached to any class or series of shares may, subject to the provisions of the BVI Act, be varied with the consent in writing of all the holders of the issued shares of that class or series or with the sanction of a resolution passed by a majority of the votes cast at a separate meeting of the holders of the shares of that class or series. The rights conferred upon the holders of the shares of any class issued shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* with or superior to such existing class of shares.

Dissolution; Winding-Up

Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board. Under BVI law, the liquidation of a company may be a voluntary solvent liquidation or an insolvent liquidation under the BVI Insolvency Act.

Voluntary Liquidation

If the liquidation is a solvent liquidation, the provisions of the BVI Act governs the liquidation. A company may only be liquidated under the BVI Act as a solvent liquidation if it has no liabilities or it is able to pay its debts as they fall due and the value of its assets exceeds its liabilities. Subject to the Amended Memorandum and Articles of Association, a liquidator may be appointed by a resolution of directors or resolution of shareholders but if the directors have commenced liquidation by a resolution of directors the shareholders must approve the liquidation plan by a resolution of shareholders save in limited circumstances.

A liquidator is appointed for the purpose of collecting in and realizing the assets of a company and distributing proceeds to creditors.

We expect that in the event of a voluntary liquidation of the Company, after payment of the liquidation costs and any sums then due to creditors, the liquidator would distribute our remaining assets on a *pari passu* basis.

Rights of Non-resident or Foreign Shareholders

There are no limitations imposed by our Amended Memorandum and Articles of Association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our Amended Memorandum and Articles of Association governing the ownership threshold above which shareholder ownership must be disclosed.

Anti-Money Laundering

If any person resident in the BVI knows or suspects that another person is engaged in money laundering or terrorist financing and the information for that knowledge or suspicion came to their attention in the course of their business the person will be required to report his or her belief or suspicion to the Financial Investigation of the British Virgin Islands, pursuant to the Proceeds of Criminal Conduct Act (as revised). Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

DESCRIPTION OF DEPOSITARY SHARES

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes the material terms and provisions of the depositary shares and depositary receipts that we may offer under this prospectus. While the terms we have summarized below will generally apply to any future depositary shares or depositary receipts we may offer under this prospectus, we will describe the particular terms of any depositary shares or depositary receipts that we may offer in more detail in the applicable prospectus supplement.

We will incorporate by reference into the registration statement of which this prospectus is a part the form of deposit agreement that describes the terms of the depositary shares and depositary receipts we may offer before the issuance thereof. The following summary is subject to, and qualified in its entirety by reference to, all provisions of the deposit agreement applicable to a particular offering of depositary shares or depositary receipts. We urge you to read any applicable prospectus supplement related to the depositary shares or depositary receipts that we sell under this prospectus, as well as the complete deposit agreement.

Description of Depositary Shares

We may offer depositary shares evidenced by depositary receipts. Each depositary share represents a fraction or a multiple of a share of the particular series of preferred shares issued and deposited with a depositary to be designated by us. The fraction or the multiple of a share of preferred shares which each depositary share represents will be set forth in the applicable prospectus supplement.

We will deposit the preferred shares of any series of preferred shares represented by depositary shares according to the provisions of a deposit agreement to be entered into between us and a bank or trust company which we will select as our preferred shares depositary. We will name the depositary in the applicable prospectus supplement. Each holder of a depositary share will be entitled to all the rights and preferences of the underlying preferred shares in proportion to the applicable fraction or multiple of a share of preferred shares represented by the depositary share. These rights may include dividend, voting, redemption, conversion and liquidation rights. The depositary will send the holders of depositary shares all reports and communications that we deliver to the depositary and which we are required to furnish to the holders of depositary shares.

Depositary Receipts

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Depositary receipts will be distributed to anyone who is buying the fractional preferred shares in accordance with the terms of the applicable prospectus supplement.

While definitive engraved depositary receipts (certificates) are being prepared, we may instruct the depositary to issue temporary depositary receipts, which will entitle holders to all the rights of the definitive depositary receipts and be substantially in the same form. The depositary will prepare definitive depositary receipts without unreasonable delay, and we will pay for the exchange of your temporary depositary receipts for definitive depositary receipts.

Withdrawal of Preferred Shares

Unless the related depositary shares have previously been called for redemption, a holder of depositary shares may receive the number of whole shares of the related series of preferred shares and any money or other property represented by the holder's depositary receipts after surrendering the depositary receipts at the corporate trust office of the depositary, paying any taxes, charges and fees provided for in the deposit agreement and complying with any other requirement of the deposit agreement. Partial preferred shares will not be issued. If the surrendered depositary shares exceed the number of depositary shares that represent the number of whole preferred shares the holder wishes to withdraw, then the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares. Once the holder has withdrawn the preferred shares, the holder will not be entitled to re-deposit such preferred shares under the deposit agreement or to receive depositary shares in exchange.

for such preferred shares. We do not expect that there will be any public trading market for withdrawn preferred shares.

Dividends and Other Distributions

The depositary will distribute to record holders of depositary shares any cash dividends or other cash distributions it receives on preferred shares, after deducting its fees and expenses. Each holder will receive these distributions in proportion to the number of depositary shares owned by the holder. The depositary will distribute only whole U.S. dollars and cents. The depositary will add any fractional cents not distributed to the next sum received for distribution to record holders of depositary shares. In the event of a non-cash distribution, the depositary will distribute property to the record holders of depositary shares, unless the depositary determines that it is not feasible to make such a distribution. If this occurs, the depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders. The amounts distributed to holders of depositary shares will be reduced by any amounts required to be withheld by the depositary or by us on account of taxes or other governmental charges.

Redemption of Depositary Shares

If the series of preferred shares represented by depositary shares is subject to redemption, we will give the necessary proceeds to the depositary. The depositary will then redeem the depositary shares using the funds they received from us for the preferred shares. The redemption price per depositary share will be equal to the redemption price payable per share for the applicable series of the preferred shares and any other amounts per share payable with respect to the preferred shares multiplied by the fraction or multiple of a preferred share represented by one depositary share. Whenever we redeem preferred shares held by the depositary, the depositary will redeem the depositary shares representing the preferred shares on the same day, provided we have paid in full to the depositary the redemption price of the preferred shares to be redeemed and any accrued and unpaid dividends. If fewer than all the depositary shares of a series are to be redeemed, the depositary shares will be selected by lot or ratably or by any other equitable methods as the depositary will decide.

After the date fixed for redemption, the depositary shares called for redemption will no longer be considered outstanding. Therefore, all rights of holders of the depositary shares will then cease, except that the holders will still be entitled to receive any cash payable upon the redemption and any money or other property to which the holder was entitled at the time of redemption. To receive this amount or other property, the holders must surrender the depositary receipts evidencing their depositary shares to the depositary. Any funds that we deposit with the depositary for any depositary shares that the holders fail to redeem will be returned to us after a period of one year from the date we deposit the funds.

Voting the Preferred Shares

Upon receipt of notice of any meeting at which the holders of preferred shares are entitled to vote, the depositary will notify holders of depositary shares of the upcoming vote and arrange to deliver our voting materials to the holders. The record date for determining holders of depositary shares that are entitled to vote will be the same as the record date for the preferred shares. The materials the holders will receive will describe the matters to be voted on and explain how the holders, on a certain date, may instruct the depositary to vote the preferred shares underlying the depositary shares. For instructions to be valid, the depositary must receive them on or before the date specified. To the extent possible, the depositary will vote the shares as instructed by the holder. We agree to take all reasonable actions that the depositary determines are necessary to enable it to vote as a holder has instructed. If the depositary does not receive specific instructions from the holders of any depositary shares, it will vote all shares of that series held by it proportionately with instructions received.

Conversion or Exchange

The depositary, with our approval or at our instruction, will convert or exchange all depositary shares if the preferred shares underlying the depositary shares are converted or exchanged. In order for the depositary to do so,

we will need to deposit the other preferred shares, common shares, or other securities into which the preferred shares are to be converted or for which it will be exchanged.

The exchange or conversion rate per depositary share will be equal to:

- the exchange or conversion rate per preferred share, multiplied by the fraction or multiple of a preferred share represented by one depositary share;
- plus all money and any other property represented by one depositary share; and
- including all amounts per depositary share paid by us for dividends that have accrued on the preferred shares on the exchange or conversion date and that have not been paid.

The depositary shares, as such, cannot be converted or exchanged into other preferred shares, common shares, securities of another issuer or any other of our securities or property. Nevertheless, if so specified in the applicable prospectus supplement, a holder of depositary shares may be able to surrender the depositary receipts to the depositary with written instructions asking the depositary to instruct us to convert or exchange the preferred shares represented by the depositary shares into other shares of our preferred shares or common shares or to exchange the preferred shares for any other securities registered pursuant to the registration statement of which this prospectus forms a part. If the depositary shares carry this right, we would agree that, upon the payment of any applicable fees, we will cause the conversion or exchange of the preferred shares using the same procedures as we use for the delivery of preferred shares. If a holder is only converting part of the depositary shares represented by a depositary receipt, new depositary receipts will be issued for any depositary shares that are not converted or exchanged.

Amendment and Termination of the Deposit Agreement

We may agree with the depositary to amend the deposit agreement and the form of depositary receipt without consent of the holder at any time. However, if the amendment adds or increases fees or charges, other than any change in the fees of any depositary, registrar or transfer agent, or prejudices an important right of holders, it will only become effective with the approval of holders of at least a majority of the affected depositary shares then outstanding. We will make no amendment that impairs the right of any holder of depositary shares, as described above under “—Withdrawal of Preferred Shares”, to receive preferred shares and any money or other property represented by those depositary shares, except in order to comply with mandatory provisions of applicable law. If an amendment becomes effective, holders are deemed to agree to the amendment and to be bound by the amended deposit agreement if they continue to hold their depositary receipts.

The deposit agreement automatically terminates if:

- all outstanding depositary shares have been redeemed or converted or exchanged for any other securities into which they or the underlying preferred shares are convertible or exchangeable;
- each share of preferred shares has been converted into or exchanged for common shares; or
- a final distribution in respect of the preferred shares has been made to the holders of depositary receipts in connection with our liquidation, dissolution or winding-up.

We may also terminate the deposit agreement at any time we wish. If we do so, the depositary will give notice of termination to the record holders not less than 30 days before the termination date. Once depositary receipts are surrendered to the depositary, it will send to each holder the number of whole or fractional shares of the series of preferred shares underlying that holder’s depositary receipts.

Charges of Depositary and Expenses

We will pay the fees, charges and expenses of the depositary provided in the deposit agreement to be payable by us. Holders of depositary receipts will pay any taxes and governmental charges and any charges provided in the deposit agreement to be payable by them. If the depositary incurs fees, charges or expenses for which it is not

otherwise liable at the election of a holder of a depositary receipt or other person, that holder or other person will be liable for those fees, charges and expenses.

Limitations on Our Obligations and Liability to Holders of Depositary Receipts

The deposit agreement expressly limits our obligations and the obligations of the depositary. It also limits our liability and the liability of the depositary as follows:

- we and the depositary are only liable to the holders of depositary receipts for negligence or willful misconduct;
- we and the depositary have no obligation to become involved in any legal or other proceeding related to the depositary receipts or the deposit agreement on your behalf or on behalf of any other party, unless you provide us with satisfactory indemnity; and
- we and the depositary may rely upon any written advice of counsel or accountants and on any documents we believe in good faith to be genuine and to have been signed or presented by the proper party.

Resignation and Removal of Depositary

The depositary may resign at any time by notifying us of its election to do so. In addition, we may remove the depositary at any time. Within 60 days after the delivery of a notice of resignation or removal of the depositary, we will appoint a successor depositary.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes certain general terms and provisions of the debt securities that we may offer in one or more series under this prospectus. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. We will also indicate in the supplement to what extent the general terms and provisions described in this prospectus apply to a particular series of debt securities.

We may issue debt securities either separately, or together with, or upon the conversion or exercise of or in exchange for, other securities described in this prospectus. Debt securities may be our senior, senior subordinated or subordinated obligations, and, unless otherwise specified in a supplement to this prospectus, the debt securities will be our direct, unsecured obligations.

The debt securities will be issued under an indenture between us and a trustee. We have summarized select portions of the indenture below. The summary is not complete. The form of the indenture has been filed as an exhibit to the registration statement, and you should read the indenture for provisions that may be important to you.

General

We can issue an unlimited amount of debt securities under the indenture that may be in one or more series with the same or various maturities, at par, at a premium, or at a discount. The terms of each series of debt securities will be established by or pursuant to a resolution of our Board and set forth in an officer's certificate or a supplemental indenture. The particular terms of each series of debt securities will be described in a prospectus supplement relating to such series (including any pricing supplement or term sheet), including the following terms, if applicable:

- the title and ranking of the debt securities (including the terms of any subordination provisions);
- the price or prices (expressed as a percentage of the principal amount) at which we will sell the debt securities;
- the aggregate principal amount of the debt securities being offered and any limit on the aggregate principal amount of such series of debt securities;
- whether any of our direct or indirect subsidiaries will guarantee the debt securities, including the terms of subordination, if any, of such guarantees;
- the date or dates on which the principal of the securities of the series is payable;
- the interest rate, if any, and the method for calculating the interest rate;
- the dates from which interest will accrue, the interest payment dates and the record dates for the interest payments;
- the place or places where principal of, and any interest on, the debt securities will be payable (and the method of such payment), where the securities of such series may be surrendered for registration of transfer or exchange, and where notices and demands to us in respect of the debt securities may be delivered;
- any mandatory or optional redemption terms;
- any obligation we have to redeem or purchase the debt securities pursuant to any sinking fund or analogous provisions or at the option of a holder of debt securities and the period or periods within which, the price or prices at which and the terms and conditions upon which securities of the series shall be redeemed or purchased, in whole or in part, pursuant to such obligation;
- any dates, if any, on which and the price or prices at which we will repurchase debt securities at the option of the holders of debt securities and other detailed terms and provisions of such repurchase obligations;
- the denominations in which the debt securities will be issued;

- whether the debt securities will be issued in the form of certificated debt securities or global debt securities;
- the currency of denomination of the debt securities, which may be U.S. dollars or any foreign currency, and if such currency of denomination is a composite currency, the agency or organization, if any, responsible for overseeing such composite currency;
- the designation of the currency, currencies or currency units in which payment of the principal of, and any interest on, the debt securities will be made;
- if payments of principal of, any interest on, the debt securities will be made in one or more currencies or currency units other than that or those in which the debt securities are denominated, the manner in which the exchange rate with respect to such payments will be determined;
- the manner in which the amounts of payment of principal of, or any interest on, the debt securities will be determined, if these amounts may be determined by reference to an index based on a currency or currencies or by reference to a commodity, commodity index, stock exchange index or financial index;

- any other terms of the series of debt securities that may supplement, modify or delete any provision of the indenture as it applies to that series, including any terms that may be required under applicable law or regulations or advisable in connection with the marketing of the debt securities.

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon maturity or a declaration of acceleration of their maturity following an event of default pursuant to the terms of the indenture. We will provide you with information on the federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal of and any premium and interest on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will provide you with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of debt securities and such foreign currency or currencies or foreign currency unit or units in the applicable prospectus supplement.

Transfer and Exchange

Each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the depository, or a nominee of the depository (we will refer to any such debt security as a “global debt security”), or a certificate issued in definitive registered form (we will refer to any debt security

represented by a certificate as a “certificated debt security”) as set forth in the applicable prospectus supplement. Except as set forth below, global debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of certificated debt securities and the right to receive the principal of, premium and interest on certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security will be deposited with, or on behalf of, the depositary, and registered in the name of the depositary or a nominee of the depositary. Beneficial interests in global debt securities will not be issuable in certificated form unless (i) the depositary has notified us that it is unwilling or unable to continue as depositary for such global debt security or has ceased to be qualified to act as such as required by the indenture and we fail to appoint a successor depositary within 90 days of such event, (ii) we determine, in our sole discretion, not to have such securities represented by one or more global securities or (iii) any other circumstances shall exist, in addition to or in lieu of those described above, as may be described in the applicable prospectus supplement. Unless and until a global debt security is exchanged for certificated debt securities under the limited circumstances described in the previous sentence, a global debt security may not be transferred except as a whole by the depositary to its nominee or by the nominee to the depositary, or by the depositary or its nominee to a successor depositary or to a nominee of the successor depositary.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

No Protection In the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Consolidation, Merger and Sale of Assets

Biohaven may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of its assets to any person (a “successor person”) unless:

- Biohaven is the surviving person or the successor person (if other than Biohaven) expressly assumes Biohaven’s obligations on the debt securities and under the indenture; and
- immediately after giving effect to the transaction, no default or event of default shall have occurred and be continuing.

Notwithstanding the above, any of Biohaven’s subsidiaries may consolidate with, merge into or transfer all or part of its properties to Biohaven.

Events of Default

“*Event of Default*” means with respect to any series of debt securities, any of the following:

- default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);
- default in the payment of principal of any security of that series at its maturity;
- default in the performance or breach of any covenant by us in the indenture (other than defaults described above or defaults relating to a covenant that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee, or we and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;
- certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of Biohaven; and
- any other event of default provided with respect to a series of debt securities that is described in the applicable prospectus supplement.

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. The occurrence of certain events of default or an acceleration under the indenture may constitute an event of default under certain indebtedness of ours or our subsidiaries outstanding from time to time.

If an event of default with respect to any series of debt securities at the time outstanding occurs and is continuing (other than an event of default resulting from certain events of bankruptcy, insolvency or reorganization), then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal amount (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series, by written notice to us and the trustee, may rescind and annul such declaration of acceleration and its consequences if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an event of default.

The indenture provides that the trustee will be under no obligation to perform any duty or exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in performing such duty or exercising such right or power. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or the securities of any series or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

- that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series;
- the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request to the trustee to institute the proceedings in respect of such event of default in its own name as trustee under the indenture;
- such holder or holders have offered to the trustee indemnity or security satisfactory to the trustee against the costs, expenses and liabilities which might be incurred by the trustee in compliance with such request;
- the trustee has failed to institute any such proceeding for 60 days after its receipt of such notice, request and offer of indemnity; and
- no direction inconsistent with such written request has been given to the trustee during such 60-day period by holders of a majority in principal amount of the outstanding debt securities of that series.

Notwithstanding any other provision in the indenture, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, and any interest on, that debt security on or after the due dates expressed in that debt security (or, in the case of redemption, on the redemption date) and to institute suit for the enforcement of any such payment and such rights shall not be impaired without the consent of such holder.

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture from our principal executive officer, principal financial officer or principal accounting officer. If a default or event of default occurs and is continuing with respect to the debt securities of any series and if it is actually known to a responsible officer of the trustee, the trustee shall mail to each holder of the debt securities of that series notice of a default or event of default within 60 days after it occurs or, if later, after a responsible officer of the trustee has knowledge of such default or event of default. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any default or event of default (except in payment on any debt securities of that series) with respect to debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those debt securities.

Modification and Waiver

We and the trustee may modify and amend or supplement the indenture or the debt securities of one or more series without the consent of any holder of any debt security:

- to add guarantees with respect to debt securities of a series or secure debt securities of a series;
- to surrender any of our rights or powers under the indenture;
- to add covenants or events of default for the benefit of the holders of any series of debt securities;
- to comply with the applicable procedures of the applicable depositary;
- to cure any ambiguity, defect or inconsistency;
- to comply with covenants in the indenture described above under the heading “—Consolidation, Merger and Sale of Assets”;
- to provide for uncertificated securities in addition to or in place of certificated securities;
- to make any change that does not materially adversely affect the rights of any holder of debt securities;

- to conform any supplement to the indenture for a series of securities or the securities of a series to the description of securities for such series in the prospectus supplement or offering document with respect to such series;
- to provide for the issuance of and establish the form and terms and conditions of debt securities of any series as permitted by the indenture;
- to effect the appointment of a successor trustee with respect to the debt securities of any series and to add to or change any of the provisions of the indenture to provide for or facilitate administration by more than one trustee;
- to comply with requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act; and
- for certain other reasons set forth in any prospectus supplement.

We may also modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

- reduce the principal amount of debt securities whose holders must consent to an amendment, supplement or waiver;
- reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;
- reduce the principal of, or change the fixed maturity of, any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;
- reduce the principal amount of discount securities payable upon acceleration of maturity;
- waive a default in the payment of the principal of, or interest, if any, on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);
- make the principal of, or any interest on, any debt security payable in currency other than that stated in the debt security;
- make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, and any interest on, those debt securities and to institute suit for the enforcement of any such payment;
- make any change to certain provisions of the indenture relating to waivers or amendments; or
- waive a redemption payment with respect to any debt security, provided that such redemption is made at our option.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all debt securities of that series, by written notice to the trustee, waive our compliance with provisions of the indenture or the debt securities with respect to such series. The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all the debt securities of such series, waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, or any interest on, any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any

series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (subject to certain exceptions). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

- we may omit to comply with the covenant described under the heading “—Consolidation, Merger and Sale of Assets” and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and
- any omission to comply with those covenants will not constitute a default or an event of default with respect to the debt securities of that series (“covenant defeasance”).

The conditions include:

- depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants or investment bank to pay and discharge each installment of principal of, and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and
- delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Governing Law

The indenture and the debt securities, including any claim or controversy arising out of or relating to the indenture or the securities, will be governed by the laws of the State of New York.

DESCRIPTION OF WARRANTS

General

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes the material terms and provisions of the warrants that we may offer under this prospectus, which consist of warrants to purchase common shares, preferred shares, depositary shares, and/or debt securities in one or more series. Warrants may be offered independently or together with common shares, preferred shares, depositary shares, and/or debt securities offered by any prospectus supplement and may be attached to or separate from those securities.

While the terms we have summarized below will generally apply to any future warrants we may offer under this prospectus, we will describe the particular terms of any warrants that we may offer in more detail in the applicable prospectus supplement. The specific terms of any warrants may differ from the description provided below as a result of negotiations with third parties in connection with the issuance of those warrants, as well as for other reasons. Because the terms of any warrants we offer under a prospectus supplement may differ from the terms we describe below, you should rely solely on information in the applicable prospectus supplement if that summary is different from the summary in this prospectus.

We will issue the warrants under a warrant agreement, which we will enter into with a warrant agent to be selected by us. We use the term “warrant agreement” to refer to any of these warrant agreements. We use the term “warrant agent” to refer to the warrant agent under any of these warrant agreements. The warrant agent will act solely as an agent of ours in connection with the warrants and will not act as an agent for the holders or beneficial owners of the warrants.

We will incorporate by reference into the registration statement of which this prospectus is a part the form of warrant agreement, including a form of warrant certificate, that describes the terms of the series of warrants we are offering before the issuance of the related series of warrants. The following summaries of material provisions of the warrants and the warrant agreements are subject to, and qualified in their entirety by reference to, all the provisions of the warrant agreement applicable to a particular series of warrants. We urge you to read any applicable prospectus supplement related to the warrants that we sell under this prospectus, as well as the complete warrant agreement that contain the terms of the warrants and defines your rights as a warrant holder.

We will describe in the applicable prospectus supplement the terms relating to a series of warrants. If warrants for the purchase of debt securities are offered, the prospectus supplement will describe the following terms, to the extent applicable:

- the offering price and the aggregate number of warrants offered;
- the currencies in which the warrants are being offered;
- the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities that can be purchased if a holder exercises a warrant;
- the designation and terms of any series of debt securities with which the warrants are being offered and the number of warrants offered with each such debt security;
- the date on and after which the holder of the warrants can transfer them separately from the related series of debt securities;
- the terms of any rights to redeem or call the warrants;
- the date on which the right to exercise the warrants begins and the date on which that right expires;
- federal income tax consequences of holding or exercising the warrants; and
- any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

Warrants for the purchase of debt securities will be in registered form only.

If warrants for the purchase of common shares, preferred shares, or depositary shares are offered, the prospectus supplement will describe the following terms, to the extent applicable:

- the offering price and the aggregate number of warrants offered;
- the total number of shares that can be purchased if a holder of the warrants exercises them;
- the number of warrants being offered with each common share;
- the date on and after which the holder of the warrants can transfer them separately from the related common shares or preferred shares or the related depositary shares;
- the amount of common shares, preferred shares, or depositary shares that can be purchased if a holder exercises the warrant and the price at which those shares may be purchased upon exercise, including, if applicable, any provisions for changes to or adjustments in the exercise price and in the securities or other property receivable upon exercise;
- the terms of any rights to redeem or call, or accelerate the expiration of, the warrants;
- the date on which the right to exercise the warrants begins and the date on which that right expires;
- federal income tax consequences of holding or exercising the warrants; and
- any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

Warrants for the purchase of common shares, preferred shares, or depositary shares will be in registered form only.

A holder of warrant certificates may exchange them for new certificates of different denominations, present them for registration of transfer and exercise them at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement. Until any warrants to purchase debt securities are exercised, the holder of the warrants will not have any of the rights of holders of the debt securities that can be purchased upon exercise, including any rights to receive payments of principal, premium or interest on the underlying debt securities or to enforce covenants in the applicable indenture. Until any warrants to purchase depositary shares or common shares or preferred shares are exercised, holders of the warrants will not have any rights of holders of the underlying depositary shares or common shares or preferred shares, including any rights to receive dividends or to exercise any voting rights, except to the extent set forth under “—Warrant Adjustments” below.

Exercise of Warrants

Each holder of a warrant is entitled to purchase the principal amount of debt securities or number of common shares or preferred shares or depositary shares, as the case may be, at the exercise price described in the applicable prospectus supplement. After the close of business on the day when the right to exercise terminates (or a later date if we extend the time for exercise), unexercised warrants will become void.

A holder of warrants may exercise them by following the general procedure outlined below:

- deliver to the warrant agent the payment required by the applicable prospectus supplement to purchase the underlying security;
- properly complete and sign the reverse side of the warrant certificate representing the warrants; and
- deliver the warrant certificate representing the warrants to the warrant agent within five business days of the warrant agent receiving payment of the exercise price.

If you comply with the procedures described above, your warrants will be considered to have been exercised when the warrant agent receives payment of the exercise price, subject to the transfer books for the securities issuable upon exercise of the warrant not being closed on such date. After you have completed those procedures and subject to the foregoing, we will, as soon as practicable, issue and deliver to you the debt securities or shares of common shares or preferred shares or depositary shares that you purchased upon exercise. If you exercise fewer than all of the warrants represented by a warrant certificate, a new warrant certificate will be issued to you for the unexercised amount of warrants. Holders of warrants will be required to pay any tax or governmental charge that may be imposed in connection with transferring the underlying securities in connection with the exercise of the warrants.

Amendments and Supplements to the Warrant Agreements

We may amend or supplement a warrant agreement without the consent of the holders of the applicable warrants to cure ambiguities in the warrant agreement, to cure or correct a defective provision in the warrant agreement, or to provide for other matters under the warrant agreement that we and the warrant agent deem necessary or desirable, so long as, in each case, such amendments or supplements do not materially adversely affect the interests of the holders of the warrants.

Warrant Adjustments

Unless the applicable prospectus supplement states otherwise, the exercise price of, and the number of securities covered by, a warrant for depositary shares or shares of common shares or preferred shares will be adjusted proportionately if we subdivide or combine our common shares or preferred shares, as applicable. In addition, unless the prospectus supplement states otherwise, if we, without payment:

- issue shares of common shares or preferred shares or other securities convertible into or exchangeable for common shares or preferred shares, or any rights to subscribe for, purchase or otherwise acquire any of the foregoing, as a dividend or distribution to all or substantially all holders of our common shares or preferred shares;
- pay any cash to all or substantially all holders of our common shares or preferred shares, other than a cash dividend paid out of our current or retained earnings;
- issue any evidence of our indebtedness or rights to subscribe for or purchase our indebtedness to all or substantially all holders of our common shares or preferred shares; or
- issue common shares, preferred shares or additional shares or other securities or property to all or substantially all holders of our common shares or preferred shares by way of spinoff, split-up, reclassification, combination of shares or similar corporate rearrangement;

then the holders of common share warrants, preferred share warrants, or depositary share warrants will be entitled to receive upon exercise of the warrants, in addition to the securities otherwise receivable upon exercise of the warrants and without paying any additional consideration, the amount of shares and other securities and property such holders would have been entitled to receive had they held the common shares or preferred shares or depositary shares issuable under the warrants on the dates on which holders of those securities received or became entitled to receive such additional shares and other securities and property.

Except as stated above, the exercise price and number of securities covered by a warrant for common shares, preferred shares, or depositary shares, and the amounts of other securities or property to be received, if any, upon exercise of those warrants, will not be adjusted or provided for if we issue those securities or any securities convertible into or exchangeable for those securities, or securities carrying the right to purchase those securities or securities convertible into or exchangeable for those securities.

Holders of common share warrants, preferred share warrants or depositary share warrants may have additional rights under the following circumstances:

- certain reclassifications, capital reorganizations or changes of the common shares or preferred shares;

- certain share exchanges, mergers, or similar transactions involving us that result in changes of the common shares or preferred shares; or
- certain sales or dispositions to another entity of all or substantially all of our property and assets.

If one of the above transactions occurs and holders of our common shares, preferred shares, or depositary shares are entitled to receive shares, securities or other property with respect to or in exchange for their securities, the holders of the common share warrants, preferred share warrants, or depositary share warrants then outstanding, as applicable, will be entitled to receive upon exercise of their warrants the kind and amount of shares and other securities or property that they would have received upon the applicable transaction if they had exercised their warrants immediately before the transaction.

DESCRIPTION OF RIGHTS

The following description, together with the additional information we include in any applicable prospectus supplement, summarizes the general features of the rights that we may offer under this prospectus. We may issue rights to our shareholders to purchase our common shares and/or any of the other securities offered hereby. Each series of rights will be issued under a separate rights agreement to be entered into between us and a bank or trust company, as rights agent. When we issue rights, we will provide the specific terms of the rights and the applicable rights agreement in a prospectus supplement. Because the terms of any rights we offer under a prospectus supplement may differ from the terms we describe below, you should rely solely on information in the applicable prospectus supplement if that summary is different from the summary in this prospectus. We will incorporate by reference into the registration statement of which this prospectus is a part the form of rights agreement that describes the terms of the series of rights we are offering before the issuance of the related series of rights. The applicable prospectus supplement relating to any rights will describe the terms of the offered rights, including, where applicable, the following:

- the date for determining the persons entitled to participate in the rights distribution;
- the exercise price for the rights;
- the aggregate number or amount of underlying securities purchasable upon exercise of the rights;
- the number of rights issued to each shareholder and the number of rights outstanding, if any;
- the extent to which the rights are transferable;
- the date on which the right to exercise the rights will commence and the date on which the right will expire;
- the extent to which the rights include an over-subscription privilege with respect to unsubscribed securities;
- anti-dilution provisions of the rights, if any; and
- any other terms of the rights, including terms, procedures and limitations relating to the distribution, exchange and exercise of the rights.

Holders may exercise rights as described in the applicable prospectus supplement. Upon receipt of payment and the rights certificate properly completed and duly executed at the corporate trust office of the rights agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the securities purchasable upon exercise of the rights. If less than all of the rights issued in any rights offering are exercised, we may offer any unsubscribed securities directly to persons other than shareholders, to or through agents, underwriters or dealers or through a combination of such methods, including pursuant to standby underwriting arrangements, as described in the applicable prospectus supplement.

DESCRIPTION OF PURCHASE CONTRACTS

The following description summarizes the general features of the purchase contracts that we may offer under this prospectus. While the features we have summarized below will generally apply to any future purchase contracts we may offer under this prospectus, we will describe the particular terms of any purchase contracts that we may offer in more detail in the applicable prospectus supplement. The specific terms of any purchase contracts may differ from the description provided below as a result of negotiations with third parties in connection with the issuance of those purchase contracts, as well as for other reasons. Because the terms of any purchase contracts we offer under a prospectus supplement may differ from the terms we describe below, you should rely solely on information in the applicable prospectus supplement if that summary is different from the summary in this prospectus.

We will incorporate by reference into the registration statement of which this prospectus is a part the form of any purchase contract that we may offer under this prospectus before the sale of the related purchase contract. We urge you to read any applicable prospectus supplement related to specific purchase contracts being offered, as well as the complete instruments that contain the terms of the securities that are subject to those purchase contracts. Certain of those instruments, or forms of those instruments, have been filed as exhibits to the registration statement of which this prospectus is a part, and supplements to those instruments or forms may be incorporated by reference into the registration statement of which this prospectus is a part from reports we file with the SEC.

We may issue purchase contracts, including contracts obligating holders to purchase from us, and for us to sell to holders, a specific or variable number of our, or an unaffiliated entity's, securities at a future date or dates. Alternatively, the purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specific or varying number of our securities.

If we offer any purchase contracts, certain terms of that series of purchase contracts will be described in the applicable prospectus supplement, including, without limitation, the following:

- the price of the securities or other property subject to the purchase contracts (which may be determined by reference to a specific formula described in the purchase contracts);
- whether the purchase contracts are issued separately, or as a part of units each consisting of a purchase contract and one or more of our other securities or securities of an unaffiliated entity, including U.S. Treasury securities, securing the holder's obligations under the purchase contract;
- any requirement for us to make periodic payments to holders or vice versa, and whether the payments are unsecured or pre-funded;
- any provisions relating to any security provided for the purchase contracts;
- whether the purchase contracts obligate the holder or us to purchase or sell, or both purchase and sell, the securities subject to purchase under the purchase contract, and the nature and amount of each of those securities, or the method of determining those amounts;
- whether the purchase contracts are to be prepaid or not;
- whether the purchase contracts are to be settled by delivery, or by reference or linkage to the value, performance or level of the securities subject to purchase under the purchase contract;
- any acceleration, cancellation, termination or other provisions relating to the settlement of the purchase contracts;
- a discussion of certain United States federal income tax considerations applicable to the purchase contracts;
- whether the purchase contracts will be issued in fully registered or global form; and
- any other terms of the purchase contracts and any securities subject to such purchase contracts.

DESCRIPTION OF UNITS

We may issue units comprising two or more securities described in this prospectus in any combination. For example, we might issue units consisting of a combination of debt securities and warrants to purchase common shares. The following description sets forth certain general terms and provisions of the units that we may offer pursuant to this prospectus. The particular terms of the units and the extent, if any, to which the general terms and provisions may apply to the units so offered will be described in the applicable prospectus supplement.

Each unit will be issued so that the holder of the unit also is the holder of each security included in the unit. Thus, the unit will have the rights and obligations of a holder of each included security. Units will be issued pursuant to the terms of a unit agreement, which may provide that the securities included in the unit may not be held or transferred separately at any time or at any time before a specified date. A copy of the forms of the unit agreement and the unit certificate relating to any particular issue of units will be filed with the SEC each time we issue units, and you should read those documents for provisions that may be important to you. For more information on how you can obtain copies of the forms of the unit agreement and the related unit certificate, when filed by us in a future Exchange Act report or as an amendment to the Registration Statement that this prospectus forms a part of, see “Where You Can Find Additional Information.”

The prospectus supplement relating to any particular issuance of units will describe the terms of those units, including, to the extent applicable, the following:

- the designation and terms of the units and the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provision for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and
- whether the units will be issued in fully registered or global form.

SELLING SHAREHOLDERS

This prospectus relates to the possible resale of an undetermined number of common shares from time to time by certain selling shareholders to be named in prospectus supplement(s).

PLAN OF DISTRIBUTION

We or any selling shareholder may sell the securities from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods or through underwriters or dealers, through agents and/or directly to one or more purchasers. The securities may be distributed from time to time in one or more transactions:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices;
- at negotiated prices; or
- through a combination of any of the above methods of sale.

Each prospectus supplement will indicate if the securities offered thereby will be listed on any securities exchange.

Offers to purchase the securities being offered by this prospectus may be solicited directly. Agents may also be designated to solicit offers to purchase the securities from time to time. Any agent involved in the offer or sale of our securities will be identified in a prospectus supplement.

If a dealer is utilized in the sale of the securities being offered by this prospectus, the securities will be sold to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If an underwriter is utilized in the sale of the securities being offered by this prospectus, an underwriting agreement will be executed with the underwriter at the time of sale and the name of any underwriter will be provided in the prospectus supplement that the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, we, the applicable selling shareholder or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for which they may act as agent. Unless otherwise indicated in a prospectus supplement, an agent will be acting on a best efforts basis and a dealer will purchase securities as a principal, and may then resell the securities at varying prices to be determined by the dealer.

Any compensation paid to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers will be provided in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933, as amended (the "Securities Act"), and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We or any selling shareholder may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof and to reimburse those persons for certain expenses.

The securities may or may not be listed on a national securities exchange. To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their option to purchase additional securities, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by

them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

If indicated in the applicable prospectus supplement, underwriters or other persons acting as agents may be authorized to solicit offers by institutions or other suitable purchasers to purchase the securities at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

We may engage in at-the-market offerings into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act. In addition, we or any selling shareholder may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of common shares, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of our common shares. In addition, we or any selling shareholder may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus and an applicable prospectus supplement. Such financial institution or other third party may transfer its economic short position to investors in our securities or in connection with a concurrent offering of other securities.

The underwriters, dealers and agents may engage in transactions with us, or perform services for us, in the ordinary course of business for which they receive compensation.
